Court Adjourns In Slaying Trial, Resumes Monday

A first-degree murder trial in Pickaway County Common Pleas Court for Cleo V. Keaton, 27, Dayton, accused of fatally wounding Maurice Francis, 50, Williamsport, has been adjourned until 9 a. m. Monday.

Prosecuting Attorney Robert H. Huffer is expected to complete his case for the State when the court reconvenes. Indications are Defense Attorney Emanuel Nadlin will present the first of several witnesses on Keaton's behalf. The accused man has pleaded not guilty and not guilty by reason of insanity to the capital charge.

First witness to testify in the trial was Lester Fletcher, Williamsport, who was the first person on record to find the victim's body following the shooting on Mar. 23.

Fletcher, returning from work at General Motors in Columbus which was also the place of employment of Francis, discovered the body on the Dawson-Yankee town Road two miles north of Williamsport at about 1:30 a. m.

Fletcher told the jury the body was still warm and that he attempted to talk to him. However, he said there was no pulse. A story carried yesterday unintentionally indicated Fletcher had detected a pulse beat.

OTHER witnesses for the prosecution Friday included Ross Seymour, who lives near the Francis home on the same farm. He also viewed the

body on the night of the alleged slaying.

The next witness was Joan Mader, Chillicothe, who identified Keaton as the man who took her car on Mar. 22 at gunpoint from the Central Shopping Center in Chillicothe. The record indicated it was the Mader car that was wrecked and found at the scene of the shooting.

Testimony by Deputy Sheriff John Wolford consumed about an hour of the morning session. He was the first officer at the scene of the alleged crime.

Wolford was guided to the scene by Fletcher who had notified authorities. When the deputy was dispatched he was on patrol looking for the auto that was reported stolen out of Chillicothe the night before.

Wolford said after he examined the body, finding the "hands and face cold", he called the sheriff, an ambulance and Dr. Ray Carroll, county coroner.

The deputy said he checked the victim's billfold and found auto registrations and had them broadcast on the radio.

THE WIDOW of Mr. Francis, Mrs. Hilda Francis, was summoned to the stand for the prosecution. In answer to Huffer's questioning, she told the jury her husband usually left for work at about 2:25 p. m. and returned "10 to 20 minutes after 1 a. m." There was no cross-examination by Nadlin.

Ned Wallace, a nephew of the late Mr. Francis and also a General Motors employee, was the seventh witness for the

GRONDED — Dr. John Darlington (left), a psychology professor at Brown University, is held by Philadelphia airport policeman Ray D'Ambrosio after he was subdued and disarmed. He was booked for brandishing a switchblade knife and menacing 39 persons aboard an Allegheny Airlines plane on a flight from Providence, R.I.

Civil Disobedience Seen By FBI as Boosting Crime

WASHINGTON (AP) — FBI Director J. Edgar Hoover said today civil disobedience will increase the nation's crime problem and lead to anarchy.

"Sowing contempt for law and order and promoting pride in law-breaking among the nation's youths can only result in an acceleration of a serious crime problem," the FBI chief said in an editorial message in the bureau's November law enforcement bulletin.

Hoover did not mention any groups or individuals by name. However, civil rights and pacifist groups and opponents of the United States' Viet Nam policy have used civil disobedience as a means of protest.

Dr. Martin Luther King Jr., a civil rights leader with whom Hoover has clashed publicly, has advocated use of civil disobedience by an oppressed minority faced with laws it considers morally unjust — but only when the group is willing to accept penalties.

Hoover described the doctrine of civil disobedience as the "startling theory that if one does not agree with a law and believes it to be morally unjust, he may disregard it to achieve a particular objective."

In some quarters, Hoover wrote, "it already appears that the social stigma formerly attached to lawbreakers is being replaced by sympathy for their actions and an irrational hostility to law enforcement."

Hoover asked: "Where is the line to be drawn against the snowball effect of civil disobedience? Willfully disobeying mis-

Apache Voter Signup Hit By Arizonan

PHOENIX, Ariz. (AP) — Apache County Atty. Richard Greer says he will refuse to register prospective Indian voters who can't speak English despite a ruling that language tests used in the county violate the new federal Voting Rights Act.

"We'll invite the federal registrars in and let them live in the (Indian) hogans," he said Friday. "We're not going to assume responsibility for registering them."

There are 39,000 persons in Apache County. Only 4,500 of them are registered voters.

Navajos, who live on federal reservations, outnumber whites more than three to one in the county, the only one in Arizona in which the U.S. Justice Department presumes possible discrimination under the new law.

Greer says most members of the tribe are illiterate and can't speak English.

Greer contends the lack of tests would result in reservation Indians taking control of the county, although they don't pay taxes and aren't liable for prosecution for such state crimes as election fraud.

Police Blotter Says 'Cat Crying, Meow'

WILMINGTON, Ohio (AP) — Among the accident reports and the police blotter this was the item that caught a newsman's eye Friday night:

"9 p.m. complaint at 225 W. Birdsall. Cat crying, 'meow'.

demeanor statutes today and committing felonies tomorrow is a logical regression from a government of law to an anarchic society."

No matter what the goal of groups who practice civil disobedience, Hoover said, "the fact remains that a peaceful, healthy, orderly society cannot exist, now or ever, if each individual may determine which laws he is going to obey and which he is not.

"Civil disobedience and the unwillingness of many to resolve their differences by established legal means will surely lead to the destruction of the institutions which protect their freedoms.

"It is folly to hold that a Utopia of individual rights will rise from the destruction of respect for law."

Jersey Girl Is Queen of Teen-Agers

DALLAS, Tex. (AP) — A wide-eyed beauty who was the favorite of fellow contestants and the stagehands as well as the 1965 Miss Teen-Age America — Colette Agnes Daiute, 16, of Paramus, N.J.

"Are those goose bumps?" she asked, hugging herself and wiping tears from her dark brown eyes after the coronation Friday night.

Colette, a 5-foot-6½ inch baton twirler, is vibrant and warm and, as columnist Abigail Van Buren, one of the judges, put it: "She loves people — has a very warm personality — and she'll be great."

Runnersup were Judy Jacob, 17, a discotheque jazz dancer from Southfield, Mich., entered as Miss Detroit, and Cynthia Anne Byrum, 17, of Charlotte, N.C.

Colette plans to use her \$10,000 scholarship to study languages at Syracuse University, become an interpreter and travel.

"I hope I can exemplify what teen-agers are — a bunch of good kids," she said, admitting she didn't much care for shaggy-haired males or draft card burners.

She felt there was room for off-beat individualism within her generation, though — "It's all a part of growing up."

Carrier Coral Sea Awarded Citation

WASHINGTON (AP) — The aircraft carrier Coral Sea has won a unit commendation for meritorious service during eight months of combat duty off Viet Nam.

The carrier — named for one of the great sea battles of World War II — and its Air Wing 15, were cited Friday for "outstanding performance in action against the enemy."

Planes from the Coral Sea flew more than 160 strikes and dumped more than 6,000 tons of explosives on military targets in North Viet Nam and the Viet Cong in South Viet Nam.

Jets from the Coral Sea were launched in more than 10,000 combat sorties over Viet Nam. The Coral Sea is the first Navy ship to receive the unit citation since the Gulf of Tonkin action in August 1964.

Marines Rout Cong's Human Wave Assault

Luci Hinted To Wed Soon

She and Friend At LBJ Ranch

JOHNSON CITY, Tex. (AP) — Eighteen-year-old Luci Johnson and her boyfriend, Pat Nugent of Waukegan, Ill., are spending the weekend at the LBJ Ranch amid unconfirmed reports they are here to seek President and Mrs. Johnson's permission to marry.

The reports were said to have come from a longtime family friend in Austin, Tex., but White House spokesmen here and in Washington would not verify them.

All that was confirmed was that vivacious, dark-haired Luci and tall, blond Pat flew to the ranch together Friday afternoon aboard an Air Force courier plane.

That wasn't unusual, a White House spokesman said, since Luci frequently brings boyfriend friends to the ranch.

The President, convalescing from his gall bladder-kidney stone surgery, was keeping to a relaxed, light schedule and had no weekend appointments.

If the family gathering was an indication of a forthcoming engagement announcement, no one at the ranch was giving out any hints.

Pat, about 23, has been dating Luci steadily since they met early this summer through mutual friends — one of them Beth Jenkins, daughter of former presidential assistant Walter Jenkins.

Young Nugent is a Roman Catholic and Luci, formerly an Episcopalian, converted to Catholicism on her 18th birthday last July 2.

After his graduation from Marquette in June, Nugent went to Washington, where he got a government job with the Advisory Board on Higher Education. His military draft status is said to be 1A and friends report he has been considering six months on Air Force active duty, which could have triggered engagement talk.

More Voter Registrars Go South

WASHINGTON (AP) — Federal registrars are headed for 12 more Southern counties in a stepped-up drive by Atty. Gen. Nicholas Katzenbach to list eligible voters under the 1965 Voting Rights Law.

Inclusion of South Carolina for the first time among states where federal registrars have been sent in, brought prompt and sharp reaction from state officials.

"We regret the attorney general is taking this position because there is no need for federal registrars in South Carolina," said Gov. Robert McNair.

"This action is an exercise of raw power," said U.S. Sen. Strom Thurmond, R-S.C. "It is an abuse of discretion by the administration in a program to perpetuate itself in office."

The new orders boosted to 32 the number of counties where special registrars have been sent since the Voting Rights Act was signed Aug. 6.

Pro-Viet Policy Showing Booked

NEW YORK (AP) — A massive demonstration of support for American fighting men in Viet Nam is being marshaled today on New York's Fifth Avenue.

A turnout of 50,000 to 100,000 is estimated by leaders of the march, set to begin at noon.

Five holders of the Medal of Honor, the nation's highest military decoration, are grand marshals for the demonstration, billed as an answer to the anti-Viet Nam protests two weeks ago.

The parade was new evidence of swelling support for U.S. policy in Viet Nam. Elsewhere, other signs of support appeared, particularly on the college campus.

The New York march has the backing of Mayor Robert F. Wagner and the City Council. It is cosponsored by City Councilman Matthew J. Troy Jr. and the New York Journal-American.

Among those scheduled to participate are veterans groups, labor and fraternal organizations, youth and student associations and a number of Hungarian "freedom fighters."

A "silent vigil" against the Viet Nam war will be held at the same time by several peace organizations in Times Square.

In Memphis, Tenn., the Inter-city Council of College Students has adopted the men of the 1st Brigade of the 101st Airborne Division, now in Viet Nam.

The council, representing six colleges and 20,000 students, will act as a clearing house for gifts to servicemen in Viet Nam.

A 30-foot telegram from more than 2,000 students and faculty members at Marquette University, Milwaukee, Wis., has been sent to American troops in Viet Nam in support of their efforts.

The telegram cost \$800 and each signer chipped in a minimum of 40 cents.

At Provo, Utah, Brigham Young University students planned a march in support of the U.S. position. The City Commission granted a permit to the students and Mayor Verl Dixon said, "I support you fully."

Seventy Honolulu high school pupils are spearheading a Hawaiian drive to have each pupil send a postcard to a U.S. serviceman in Viet Nam before Christmas.

In Springfield, Mass., the American International College chapter of Young Americans for Freedom will hold a demonstration in Court Square in support of U.S. policy.

Leaders of Students for a Responsible Stand in Viet Nam at Northern Illinois University in De Kalb plan to raise money to

4 Youths Face Trial For Kidnaping Girl

CINCINNATI (AP) — Four young men face trial in U. S. District Court on charges of abducting and kidnaping a 17-year-old Portsmouth girl.

Peter V. McCleese, 21, Columbus; Mitchell D. McCleese, 19, West Portsmouth; Gary D. Brown, 18, Albion, Mich., and Billy J. Duncan, 17, Springfield, Mich., are accused of taking the girl from Portsmouth to Lynn, Ky., last July 3 for immoral purposes. The four were indicted Friday by a Federal Grand Jury.

run full-page newspapers ads telling American soldiers of their support. Copies of the ads will be sent to military men in Viet Nam.

Smog Blankets Los Angeles

LOS ANGELES (AP) — What happens to a city breathing smog?

On the fourth consecutive day of heavy smog and the 10th straight day of over-90 temperatures, Los Angeles Friday reacted this way:

Doctors in the outpatient clinic at Children's Hospital reported an increase in patients with chronic respiratory diseases.

A nurse on an upper floor said her young patients were unusually cranky.

Police Lt. Jasper Clark, 44, commander of downtown traffic control, said more officers than usual had fallen ill.

Attendance at harness races at Hollywood Park was down 10 per cent. A spokesman said the horses' times were slower.

The smog attack set tempers flaring on the political front, as Los Angeles Mayor Samuel W. Yorty and Gov. Edmund G. Brown argued over who was to blame.

"I'm convinced," said Yorty, "that if you want nothing done, you have the state do it."

The governor replied that it was the first time Yorty has shown much interest in the state's fight against smog. The state has required new autos, and used cars re-sold, to be equipped with antismog crankcase-breather devices.

More smog was predicted for today. The Los Angeles County's Air Pollution Control District blamed the attack on lack of winds, which normally blow smog away before it becomes heavily concentrated.

The smog hit all sections of the vast Los Angeles coastal plain.

Finance Group Named by Rhodes

COLUMBUS, Ohio (AP) — Gov. James A. Rhodes today appointed the seven-member Ohio Development Financing Commission, which was created by the 106th Ohio General Assembly.

Named to the commission were: Paul E. Humes, Democrat, Youngstown; Don M. Hilliker, Republican, Bellefontaine; Paul E. Belcher, Democrat, Akron; William Cullen Safford, Democrat, Cincinnati; Willard I. Webb, Republican, Toledo; Roswell B. Perkins, Republican, Green Township, Hocking County; and George R. Herzog, Republican, Shaker Heights.

The commission was established to handle various phases of the state's industrial financing programs.

U.S. Payroll Increases

WASHINGTON (AP) — The federal government employed 2,520,724 civilians in September, an increase of 59,184 over a year ago, a Senate Finance committee reported today.

Hand-to-Hand Fight Reported

Many Teen-Agers Among Foe's Dead

SAIGON, South Viet Nam (AP)—U.S. Marines, using pistols and fighting hand-to-hand from their tents, beat off a "human wave" assault by the Viet Cong in the early morning darkness today 10 miles southwest of Da Nang.

A U.S. military spokesman said 56 Viet Cong, many of them teen-agers, were killed. He described casualties among the 300 Marines as moderate.

One Marine squad, however, was badly mauled. Two of its 14 men were killed and the rest wounded, the spokesman said.

The Viet Cong also mortared the U.S. special forces camp at Plei Me in the central highlands and launched a flurry of new assaults in the Mekong Delta.

A 13-year-old boy was among the Viet Cong dead at Da Nang. Marines said he had been selling soft drinks to Americans in the area and they found drawings of key U.S. installations on his body.

"We dropped a lot of Viet Cong with pistols," said Sgt. Harry Dowdy of Salisbury, Md. "They came right up to our holes. We fired at a range of 10 yards."

The assault, by an estimated 100 Viet Cong from a force of 400, was the second against Marines in the Da Nang area since Thursday, when a Viet Cong suicide squad infiltrated the Marble Mountain air facility and destroyed and damaged 38 helicopters. Da Nang is the site of the big American air base 380 miles northeast of Saigon.

The guerrillas broke through the Marine defense perimeter today and overran bunker positions. After an hour's battle, the Viet Cong broke and fled. Marines and Vietnamese fanned out in pursuit.

In Saigon senior U.S. military sources gave another indication of increased Communist activity. They reported North Viet Nam has sent waves of fresh troops into the highlands north of the capital for what could be one of the showdown battles of the war.

The surges said 10 to 11 regiments are roaming the area now. Seven of them were described as North Vietnamese units accompanied by heavy weapons battalions.

The attack on the company of Marines near Da Nang however, was made by both hard-core Viet Cong and teen-agers, the U.S. spokesman said. Marines said the youngsters had been recruited a few hours earlier at a village and forced to join in the attack.

One captured Viet Cong was quoted as saying that he belonged to a hard-core battalion

Once Around Roundtown

POLICE CHIEF Robert Temple cautioned parents to accompany their youngsters tonight when they go "trick and treat."

The Chief pointed out that frequently the smaller children endanger their own safety by dashing into the streets in their haste to get to another house for more "goodies."

Solons Ask Support for Hospital Levy

Members of Pickaway County's Board of Commissioners have voiced endorsement and support of a half-mill levy for Berger Hospital.

The solons have stated that no county funds are available to help meet operating expenses at the hospital. The Board extended its support for the Berger levy and urged all Pickaway County residents to do the same in an effort to establish a better medical facility.

Commissioner Charles Morris, acting as spokesman for the lawmakers, said it is imperative that this community have a hospital that provides all available services.

Roy H. Huffer Jr., Pickaway County's representative to the State Legislature, has sounded a similar endorsement of the levy proposal. He said he is aware that problems exist at Berger, but emphasized that the city and county must make every effort to maintain adequate hospital facilities.

Comic Signs for Fair

COLUMBUS, Ohio (AP) — Comedian Bob Hope has signed a contract to appear at next year's Ohio State Fair. He is scheduled for a grandstand show the weekend of Aug. 27-28.

Nuclear Test In Aleutians Said Success

AMCHITKA ISLAND, Alaska (AP) — A thermonuclear device packing the power of 80,000 tons of TNT was detonated far under the bleak, flat surface of Amchitka Friday in a shot scientists called "near perfect."

The atomic shot, with four times the power of the nuclear bombs which devastated Hiroshima and Nagasaki in World War II, was designed to test the United States' ability to distinguish between earth waves caused by natural seismic disturbances and those generated by underground atomic blasts.

The United States invited all nations with seismological stations, including the Soviet Union, to record the earth waves generated by the shot and promised that all data compiled from the test would be made available on request.

Col. Donald I. Prickett, test manager for the underground detonation, carrying the code name of Project Long Shot, was jubilant.

"I don't think even an atom got out," Prickett said. "It was near perfect."

The thermonuclear device, buried 2,300 feet in the volcanic rock of which this island is composed, caused a shock described by Lt. Col. Ben Grote, deputy test manager for the Department of Defense, as a sharp, brief jolt.

Cause of Star's Death Undecided

LOS ANGELES (AP) — Whether Actress Marie McDonald died accidentally or took her own life will be left up to a team of psychiatrists, the coroner's office reports.

Miss McDonald, 42, once known in Hollywood as "the Body," was found dead in her San Fernando Valley home Oct. 21.

Dr. Kenneth Chapman, chief autopsy surgeon, said tests show she died from "active drug intoxication due to multiple drugs." He said they could have been taken accidentally or as a suicide.

At the time of her death, friends said she often took drugs to kill the pain of an ulcer.

Miami To Open Bids

Young Nugent is a Roman Catholic and Luci, formerly an Episcopalian, converted to Catholicism on her 18th birthday last July 2.

After his graduation from Marquette in June, Nugent went to Washington, where he got a government job with the Advisory Board on Higher Education. His military draft status is said to be 1A and friends report he has been considering six months on Air Force active duty, which could have triggered engagement talk.

More Voter Registrars Go South

WASHINGTON (AP) — Federal registrars are headed for 12 more Southern counties in a stepped-up drive by Atty. Gen. Nicholas Katzenbach to list eligible voters under the 1965 Voting Rights Law.

Inclusion of South Carolina for the first time among states where federal registrars have been sent in, brought prompt and sharp reaction from state officials.

"We regret the attorney general is taking this position because there is no need for federal registrars in South Carolina," said Gov. Robert McNair.

"This action is an exercise of raw power," said U.S. Sen. Strom Thurmond, R-S.C. "It is an abuse of discretion by the administration in a program to perpetuate itself in office."

The new orders boosted to 32 the number of counties where special registrars have been sent since the Voting Rights Act was signed Aug. 6.

\$176,400 Bull Is Still Flop as Pop

AUBURN, Ala. (AP) — Lindertis Evulse may be heading to surgery again to keep him from being a flop as a pop. The outlook is dim.

Lindertis, a \$176,400 Aberdeen-Angus, is grazing on an Alabama farm today while doctors consider whether to operate again.

Doctors operated on Lindertis in July and bypassed a blockage in the tube through which sperm flows.

"We've lost the sperm cells

Pro-Viet Policy Showing Booked

NEW YORK (AP) — A massive demonstration of support for American fighting men in Viet Nam is being marshaled today on New York's Fifth Avenue.

A turnout of 50,000 to 100,000 is estimated by leaders of the march, set to begin at noon.

Five holders of the Medal of Honor, the nation's highest military decoration, are grand marshals for the demonstration, billed as an answer to the anti-Viet Nam protests two weeks ago.

The parade was new evidence of swelling support for U.S. policy in Viet Nam. Elsewhere, other signs of support appeared, particularly on the college campus.

The New York march has the backing of Mayor Robert F. Wagner and the City Council. It is cosponsored by City Councilman Matthew J. Troy Jr. and the New York Journal-American.

Among those scheduled to participate are veterans groups, labor and fraternal organizations, youth and student associations and a number of Hungarian "freedom fighters."

A "silent vigil" against the Viet Nam war will be held at the same time by several peace organizations in Times Square. In Memphis, Tenn., the Inter-city Council of College Students has adopted the men of the 1st Brigade of the 101st Airborne Division, now in Viet Nam.

The council, representing six colleges and 20,000 students, will act as a clearing house for gifts to servicemen in Viet Nam.

A 30-foot telegram from more than 2,000 students and faculty members at Marquette University, Milwaukee, Wis., has been sent to American troops in Viet Nam in support of their efforts. The telegram cost \$800 and each signer chipped in a minimum of 40 cents.

At Provo, Utah, Brigham Young University students planned a march in support of the U.S. position. The City Commission granted a permit to the students and Mayor Verl Dixon said, "I support you fully."

Seventy Honolulu high school pupils are spearheading a Hawaiian drive to have each pupil send a postcard to a U.S. serviceman in Viet Nam before Christmas.

In Springfield, Mass., the American International College chapter of Young Americans for Freedom will hold a demonstration in Court Square in support of U.S. policy.

Leaders of Students for a Responsible Stand in Viet Nam at Northern Illinois University in De Kalb plan to raise money to

4 Youths Face Trial For Kidnaping Girl

CINCINNATI (AP) — Four young men face trial in U. S. District Court on charges of abducting and kidnaping a 17-year-old Portsmouth girl.

Peter V. McCleese, 21, Columbus; Mitchell D. McCleese, 19, West Portsmouth; Gary D. Brown, 18, Albion, Mich., and Billy J. Duncan, 17, Springfield, Mich., are accused of taking the girl from Portsmouth to Lynn, Ky., last July 3 for immoral purposes. The four were indicted Friday by a Federal Grand Jury.

Smog Blankets Los Angeles

LOS ANGELES (AP) — What happens to a city breathing smog?

On the fourth consecutive day of heavy smog and the 10th straight day of over-90 temperatures, Los Angeles Friday reacted this way:

Doctors in the outpatient clinic at Children's Hospital reported an increase in patients with chronic respiratory diseases.

A nurse on an upper floor said her young patients were unusually cranky.

Police Lt. Jasper Clark, 44, commander of downtown traffic control, said more officers than usual had fallen ill.

Attendance at harness races at Hollywood Park was down 10 per cent. A spokesman said the horses' times were slower.

The smog attack set tempers flaring on the political front, as Los Angeles Mayor Samuel W. Yorty and Gov. Edmund G. Brown argued over who was to blame.

"I'm convinced," said Yorty, "that if you want nothing done, you have the state do it."

The governor replied that it was the first time Yorty has shown much interest in the state's fight against smog. The state has required new autos, and used cars re-sold, to be equipped with antimog crankcase-breather devices.

More smog was predicted for today. The Los Angeles County's Air Pollution Control District blamed the attack on lack of winds, which normally blow smog away before it becomes heavily concentrated.

The smog hit all sections of the vast Los Angeles coastal plain.

Finance Group Named by Rhodes

COLUMBUS, Ohio (AP) — Gov. James A. Rhodes today appointed the seven-member Ohio Development Financing Commission, which was created by the 106th Ohio General Assembly.

Named to the commission were: Paul E. Humes, Democrat, Youngstown; Don M. Hilliker, Republican, Bellefontaine; Paul E. Belcher, Democrat, Akron; William Cullen Safford, Democrat, Cincinnati; Willard I. Webb, Republican, Toledo; Roswell B. Perkins, Republican, Green Township, Hocking County, and George R. Herzog, Republican, Shaker Heights.

The commission was established to handle various phases of the state's industrial financing programs.

U.S. Payroll Increases

WASHINGTON (AP) — The federal government employed 2,520,724 civilians in September, an increase of 39,184 over a year ago, a Senate-House committee reported today.

Hand-to-Hand Fight Reported

Many Teen-Agers Among Foo's Dead

SAIGON, South Viet Nam (AP) — U.S. Marines, using pistols and fighting hand-to-hand from their tents, beat off a "human wave" assault by the Viet Cong in the early morning darkness today 10 miles southwest of Da Nang.

A U.S. military spokesman said 56 Viet Cong, many of them teen-agers, were killed. He described casualties among the 300 Marines as moderate.

One Marine squad, however, was badly mauled. Two of its 14 men were killed and the rest wounded, the spokesman said.

The Viet Cong also mortared the U.S. special forces camp at Plei Me in the central highlands and launched a flurry of new assaults in the Mekong Delta.

A 13-year-old boy was among the Viet Cong dead at Da Nang. Marines said he had been selling soft drinks to Americans in the area and they found drawings of key U.S. installations on his body.

"We dropped a lot of Viet Cong with pistols," said Sgt. Harry Dowdy of Salisbury, Md. "They came right up to our holes. We fired at a range of 10 yards."

The assault, by an estimated 100 Viet Cong from a force of 400, was the second against Marines in the Da Nang area since Thursday, when a Viet Cong suicide squad infiltrated the Marble Mountain air facility and destroyed and damaged 38 helicopters. Da Nang is the site of the big American air base 380 miles northeast of Saigon.

The guerrillas broke through the Marine defense perimeter today and overran bunker positions. After an hour's battle, the Viet Cong broke and fled. Marines and Vietnamese fanned out in pursuit.

In Saigon senior U.S. military sources gave another indication of increased Communist activity. They reported North Viet Nam has sent waves of fresh troops into the highlands north of the capital for what could be one of the showdown battles of the war.

The sources said 10 to 11 regiments are roaming the area now. Seven of them were described as North Vietnamese units accompanied by heavy weapons battalions.

The attack on the company of Marines near Da Nang however, was made by both hard-core Viet Cong and teen-agers, the U.S. spokesman said. Marines said the youngsters had been recruited a few hours earlier at a village and forced to join in the attack.

One captured Viet Cong was quoted as saying that he belonged to a hard-core battalion

Soybean Seed Discoloration More Evident

By MONROE HARBAGE
Extension Trainer

Purple discoloration of soybean seed is more prevalent this fall than it has been for a number of years.

According to Dr. P. E. Smith of the Agronomy Department at Ohio State University, this purple discoloration of soybean seeds is caused by the fungus "Corcospora Khuchii." More commonly it is called the purple stain disease that was first noticed in 1927 in Indiana.

The disease has spread to most other states where soybeans are grown.

Weather conditions prevailing at the time of maturity seem to have a great influence on the extent of damage. The symptoms of this disease vary from pink to dark purple and from small spots to the entire seed.

When the seed is planted the fungus grows and weakens the seedlings, many of which are killed shortly after emergence. This fungus may also be carried over on leaves and stems of plants from one year to another.

None of our present varieties are resistant to this fungus, although a degree of control is possible by treating with seed protectants such as Arasan, Kaptan and Spergon. This may help in saving seedlings but will not assure freedom from purple stain in the seed crop.

Further information may be obtained at the County Extension office, 159 1/2 E. Main St.

Reapportionment Maps Offered for 70 Cents

COLUMBUS, Ohio (AP) — If you want to know in which district you live under Ohio's new legislative reapportionment, you can get a complete set of maps for 70 cents.

John McElroy, assistant to Gov. James A. Rhodes, said arrangements have been made with Nida-Eckstein Printing Co., 2125 W. Fifth Ave., Columbus, to mail out the kits for those wanting the information.

BROOKLYN DAIRY "FARM" SQUEEZED—Deep in the heart of New York's Borough of Brooklyn, surrounded (upper) by a modern housing project, a sheet metal works and parking lots is a half-acre dairy "farm" with 60 cows (lower), and the city is trying to oust it to make way for progress. It's owned by Louis M. Wank (Mrs. Wank is in lower photo), whose family has had it there for 52 years. The city wants the Wank property (including the 12-room, two-family house in upper photo) and seven adjoining acres for a public housing project. In cases like this the City Planning Commission relocates business, but, said Wank, "How can they relocate a dairy farm?" in Brooklyn.

The house that's right for a young family may not be the most suitable for older persons. Are your children raised and gone? What do you do with your extra rooms? And who cleans them?

For older people (and who of us isn't getting older every day) fewer rooms and activity areas are needed. Emphasis is on easy maintenance and safety. You should be able to reach your shelves easily. Avoid sore muscles and falls. Make sure you can move from room to room easily.

Fewer stairs, no threshold strips and secure rugs help make this moving about easier. It is wise to plan for windows close to the floor. This allows you to enjoy the view without straining when you really can't get around much.

Floor plans in a new U. S. Department of Agriculture bulletin take these special needs into consideration. They've designed them with a limited budget with the retired person in mind.

Could you or other family members locate valuable papers for review in case of emergency? Are they safe? If they were lost or burned, would you be able to replace them?

Make a list of valuable papers and where they are to be found. Keep a copy at home in a safe place. Keep duplicate copies in a safe deposit box and in the possession of a relative away from home.

Be sure you can find real estate deeds and mortgages, leases, records of debits and amounts owed to you, records of stocks and bonds, insurance policies, bank account numbers, records of personal property, wills, birth and death certificates, adoption papers, marriage and divorce certificates, social security numbers and tax receipts.

Nematodes Could Be Cause Of Unsightly Brown Lawn

By GEORGE HAMRICK
County Extension Agent, Agriculture

If you've tried everything and failed to get the brown, drab look out of your lawn this fall, the soil may be infested with tiny worms you can't see.

Dr. R. E. Partya, Extension Plant pathologist at Ohio State University suggests this possible trouble if your lawn hasn't greened up even though you've fertilized, had plenty of rainfall and can't find any insects.

Microscopic round worms or eelworms, called nematodes penetrate into the grass roots or suck sap from the root surface. They also may cause wounds through which disease-producing micro-organisms may enter.

The grass begins to die out when the nematodes build up in numbers. Poor growing conditions for turf may favor an increase of nematodes that help to kill the grass completely.

IF NEMATODES are present, the turf will be off-color, lack vigor, and be very thin with few green grass blades. If severe, ask your local county Extension office for forms to submit a sample to the Plant Disease Clinic for examination.

If your lawn does have nematodes, Partya says you can apply Nemagon, Fumazone, or VC-13 Nemacide, following the manufacturer's directions carefully.

When you've ridded the lawn of nematodes, keep them out by watering and fertilizing to maintain vigorous grass growth.

Grain Bin Floor Data Is Available

The foundation and floor for a new or used grain bin must protect the grain from moisture and rodents.

Anchor the bin, and provide a method of removing the grain, says J. D. Blicke, Ohio State University Extension Agricultural engineer.

The latest Agricultural Engineers' Digest, published by the Midwest Plan Service, describes how to accomplish these requirements. The publication details three floor types that have proven successful. It also shows four methods of attaching the bin wall to a foundation.

The sealing of the wall around the foundation is an annual problem with most grain bins. Several methods of sealing are described.

The Digest also contains foundation forming details and information on the type and quality of concrete to use, including proportions of ingredients and

Challenge of Change

Social Inventions Seen As Antidote for Change

EDITOR'S NOTE: The technological revolution has created social problems but man is producing social inventions to solve them. In the following, last of a 10-part series on the scientific age, Associated Press Science Writer Alton Blakeslee examines the

4-H News

Members of 4-H interested in taking steer feeding projects are now busy selecting their calves for 1966.

The steer feeding projects give members a chance to learn by experience concerning the beef cattle business. They learn about feeds and feeding practices and the language of cattlemen.

Much of the success in the cattle feeding business comes from wise buying and wise selling. Members learn to make decisions necessary to have a satisfying and personal experience of responsibility of management skills. Members learn from the beginning how to select and judge desirable calves.

Steer feeding projects must be in the care and management of the 4-H'er before Jan. 1, 1966, to be eligible for 1966 projects. It is recommended that members select choice bred steer calves this fall.

It is important to select calves of proper weight which will fatten to about 1000 pounds by the first week in August for selling.

An old Scotch saying: "the eye of the Master fattens cattle," means as much to cattlemen as the motto "to make the best better" means to 4-H club members. Members learn "know how" by doing.

Further information may be obtained by calling the Extension office.

social steps aimed at keeping up with the technological gains.

By ALTON BLAKESLEE
AP Science Writer

One prime antidote to social indigestion is social inventions. These are the new ideas, techniques, programs, customs, brought forth to meet changing conditions and new human needs.

As a social inventor, for instance, man produced language, arithmetic, schools, art, money, marriage, labor unions and retirement pensions.

Now, a stream of social inventions is being proposed to adapt to the hurricane of change, to combat hardening of the arteries in trusted and vital social institutions, to make the 20th Century more of a human century.

To cite some examples:

In California, engineers in space-aviation industries are engaged in state-sponsored studies to learn whether their special engineering skills can aid in solving problems of smog, waste disposal, transportation, and even juvenile delinquency.

Abroad, the Peace Corps is using the talents and enthusiasms of young Americans in attempts to help neighbors in "have-not" nations.

For people thrown out of work by automation, there are increasing efforts to provide training in new skills, new jobs.

Operation Head Start is trying to give underprivileged youngsters, before schooling begins, some of the cultural and curiosity stimulation they missed at home. The idea is that then they will be less likely to drop out of school.

Worries over expanding population are resulting in some changes in laws, and attitudes, and in birth control programs here and abroad to help people control family size as they see fit. The U.S. birth rate is now declining slightly.

A bright social invention idea might occur to anyone — taxi-driver, housewife, lawyer, repairman, student or businessman. But there's no simple way to have its merits considered, no suggestion box as in industry, no Patent Office as there is for ideas for physical inventions.

But a community, state or federal government could step up an Office of Social Inventions to encourage solutions — not just complaints — about tough complex problems of the day.

The reward for a workable idea, or part of a solution, could be a medal or other public recognition, or even forgiveness of part of the income or property of the inventor.

Some such system could also serve as an early warning device that some serious difficulty is growing among part of the populace, calling for remedy before it reaches crisis proportions.

The social invention faces a tougher course before final acceptance than, say, a new can opener.

It likely costs money, tax money. The idea may not be a wonderful as the inventor thinks, or could be bad "medicine" in the long run. It's subject to use for political gain. Or the way it is being carried out may be wasteful or harmful.

Nonetheless, optimists abound who believe answers can and will be found to the challenges from change.

Dr. Margaret Mead, the anthropologist, senses "a stirring

of a sense of opening up of the whole world."

By scientific theory, man evolved through "blind, opportunistic and natural selection" from the simplest form of life appearing on earth about 2,750 million years ago, the famous British biologist, Sir Julian Huxley, has said.

If that be so, "what could not man's conscious and purposeful efforts achieve even in a couple of million years, let alone in thousands of millions to which not only religious leaders, stress Many leaders of opinion, and a need to cultivate a meaning in life, a goal and a sense of purpose.

Science itself, an adventure in learning, can assist in this, suggest Prof. George Wald Harvard University biologist.

"Science offers increased understanding, and reveals a unity in nature," he says.

"Science is therefore full of security for the individual. It should increase man's feeling of being at home in the universe, his feeling of being to some extent the master of his own destiny."

Technology, he adds, uses knowledge from science and "people should realize that the decisions about all this ought not to be in the heads of experts. It is for the general public to decide what to do with the knowledge — not to try to shut off the progress of science."

A dynamic society collides with the fact that "all people are somewhat resistant to change," says Dr. William Menninger, Topeka, Kan., psychiatrist.

"We don't know much yet why this resistance exists, why we become so set in our ways. Maybe it is an in-built biological factor. Generally we love inertial, and are more or less stubborn. But when people become immobile, mentally or physically, they age."

Dr. Menninger points to a kind of fountain of youth and adaptability — "just having zest in life. It gives a great return for the investment one makes. You're not so likely to become bored.

"Look at the older folks in mental hospitals, and you find them dried up. They had quit growing and changing, and adapting. The 20th Century did pass them by."

For everyone, the challenge is not to let an exciting century skip him by.

Yields Aided By Analysis Of Plants

Ohio's plant analysis program is helping farmers get best possible crop yields by insuring that the crops are properly supplied with nutrients, scientists attending the 57th annual meeting of the American Society of Agronomy held recently in Columbus were told.

Myron H. Warner, technical assistant in the department of agronomy at the Ohio Research and Development Center, Wooster, described the operation of Ohio's new plant analysis laboratory.

Warner told how mailing kits, purchased by growers, are used to send plant samples to the laboratory. Samples received at the lab are inspected and prepared for analysis on a direct reading emission spectrograph.

They are dried, ground, weighed and ashed and then analyzed to determine the concentration values of certain elements. These concentration values are converted to percentages or to parts per million on an electronic computer.

From this data, the plant scientists at the Research Center interpret results and prepare report forms with recommendations which are sent back to the producers.

basic instructions on placing concrete.

Farmers may order the Digest, "Grain Bin Floors and Foundations" through their county Extension office, or from the Extension Agricultural engineer, Ohio State University, Columbus.

Navy Takes Delivery On Undersea Missile

AZUSA, Calif. (AP) — The Navy has taken delivery of the first Mark underwater guided missile, designed to range deeper and farther than any previous antisubmarine weapon. The missile is designed to be launched from air and surface craft.

Silver Bell Swamped With Stamp Requests

SILVER BELL, Ariz. (AP) — More than 100,000 requests from throughout the world have been received for first-day cancellations of the 1965 Christmas stamp, postal officials say. Another 400,000 requests are expected. The stamp will be issued next Tuesday in Silver Bell, a town of 800 near Tucson.

One prime antidote to social indigestion is social inventions. These are the new ideas, techniques, programs, customs, brought forth to meet changing conditions and new human needs.

As a social inventor, for instance, man produced language, arithmetic, schools, art, money, marriage, labor unions and retirement pensions.

Now, a stream of social inventions is being proposed to adapt to the hurricane of change, to combat hardening of the arteries in trusted and vital social institutions, to make the 20th Century more of a human century.

To cite some examples: In California, engineers in space-aviation industries are engaged in state-sponsored studies to learn whether their special engineering skills can aid in solving problems of smog, waste disposal, transportation, and even juvenile delinquency.

Abroad, the Peace Corps is using the talents and enthusiasms of young Americans in attempts to help neighbors in "have-not" nations.

For people thrown out of work by automation, there are increasing efforts to provide training in new skills, new jobs.

Operation Head Start is trying to give underprivileged youngsters, before schooling begins, some of the cultural and curiosity stimulation they missed at home. The idea is that then they will be less likely to drop out of school.

Worries over expanding population are resulting in some changes in laws, and attitudes, and in birth control programs here and abroad to help people control family size as they see fit. The U.S. birth rate is now declining slightly.

A bright social invention idea might occur to anyone — taxi-driver, housewife, lawyer, repairman, student or businessman. But there's no simple way to have its merits considered, no suggestion box as in industry, no Patent Office as there is for ideas for physical inventions.

But a community, state or federal government could step up an Office of Social Inventions to encourage solutions — not just complaints — about tough complex problems of the day. The reward for a workable idea, or part of a solution, could be a medal or other public recognition, or even forgiveness of part of the income or property of the inventor.

Some such system could also serve as an early warning device that some serious difficulty is growing among part of the populace, calling for remedy before it reaches crisis proportions.

The social invention faces a tougher course before final acceptance than, say, a new can-opener.

It likely costs money, tax money. The idea may not be as wonderful as the inventor thinks, or could be bad "medicine" in the long run. It's subject to use for political gain. Or the way it is being carried out may be wasteful or harmful.

Nonetheless, optimists abound who believe answers can and will be found to the challenges from change.

Dr. Margaret Mead, the anthropologist, senses "a stirring

of a sense of opening up of the whole world."

By scientific theory, man evolved through "blind, opportunistic and natural selection" from the simplest form of life appearing on earth about 2,750 million years ago, the famous British biologist, Sir Julian Huxley, has said.

If that be so, "what could not man's conscious and purposeful efforts achieve even in a couple of million years, let alone in thousands of millions to which not only religious leaders, stress Many leaders of opinion, and a need to cultivate a meaning in life, a goal and a sense of purpose.

Science itself, an adventure in learning, can assist in this, suggest Prof. George Wald Harvard University biologist.

"Science offers increased understanding, and reveals a unity in nature," he says. "Science is therefore full of security for the individual. It should increase man's feeling of being at home in the universe, his feeling of being to some extent the master of his own destiny."

Technology, he adds, uses knowledge from science and "people should realize that the decisions about all this ought not to be in the hands of experts. It is for the general public to decide what to do with the knowledge — not to try to shut off the progress of science."

A dynamic society collides with the fact that "all people are somewhat resistant to change," says Dr. William Menninger, Topeka, Kan., psychiatrist.

"We don't know much yet why this resistance exists, why we become so set in our ways. Maybe it is an in-built biological factor. Generally we love inertia, and are more or less stubborn. But when people become immobile, mentally or physically, they age."

Dr. Menninger points to a kind of fountain of youth and adaptability — "just having zest in life. It gives a great return for the investment one makes. You're not so likely to become bored."

"Look at the older folks in mental hospitals, and you find them dried up. They had quit growing and changing, and adapting. The 20th Century did pass them by."

For everyone, the challenge is not to let an exciting century skip him by.

Navy Takes Delivery
On Undersea Missile

ANZA, Calif. (AP) — The Navy has taken delivery of the first Mark underwater guided missile, designed to range deeper and farther than any previous antisubmarine weapon. The missile is designed to be launched from air and surface craft.

Silver Bell Swamped
With Stamp Requests

SILVER BELL, Ariz. (AP) — More than 100,000 requests from throughout the world have been received for first-day cancellations of the 1965 Christmas stamp, postal officials say. Another 400,000 requests are expected. The stamp will be issued next Tuesday in Silver Bell, a town of 800 near Tucson.

Book Review

By SUE PAGNANO

Mississippi: The Closed Society, by James W. Silver, (Harcourt, Brace & World), 243 pages.

Mr. Silver's book is a glimpse into another world. Most everyone knows the Negro is discriminated against and the South has long been regarded as the extreme center of such activities.

The author describes the lengths to which politicians and leaders of Mississippi go to "enslave" a group of people. Imagine, if you can, the following as outlined by Mr. Silver:

The listing of "subversive" organizations such as the Meth-

odist Church, the American Red Cross, the FBI, the Elks and so on.

A State Sovereignty Commission which publicizes Mississippi way of life (white supremacy), investigates subversives and contributes to the Citizens Council.

A Citizens Council which keeps a card file on people's racial views, bans literature and visual aids from public schools which they (the Council) deem being of an integrationist nature, promotes literature within the schools declaring segregation necessary and Christian, controls newspapers and politicians, indoctrinates the populace with hate and fear by means of propaganda and coercion and controls church and religious leaders.

The author is mainly interested in the activities which took place when James Meredith enrolled at Ole Miss. But in doing this he also tells the workings of a state which never got beyond the Reconstruction Era.

The latter part of the book is composed of personal letters of the author written during the time Mr. Meredith remained on the Ole Miss campus where Mr. Silver was teaching and Mr. Silver's association with the pupils. However, the first part of the book is the most informative, although it may not be as enjoyable reading.

Mr. Silver writes like a history prof — detailed, and somewhat dull in manner. But the excitement is carefully chronicled. I doubt if one could dismiss the book very easily.

Business Briefs

Sales and earnings of Owens-Illinois, Inc., were at all-time highs during the first nine months of 1965, according to J. P. Lewis, chairman of the board. Sales rose to \$617,388,160 during the nine months ended Sept. 30, compared to \$520,076,079 during the same period of 1964.

Earnings after taxes were \$33,786,005 compared to \$32,989,032 a year ago. Not included in 1965 earnings is a gain of approximately \$15,000,000 on the sale last April 16 of a paper mill and five corrugated shipping box plants in compliance with an anti-trust consent judgment.

After preferred dividend requirements, earnings per common share were \$2.18 compared to \$2.11 a year ago. The non-recurring gain amounted to \$1.02 a common share.

Chamber Meeting Slated Tuesday

Committee reports and the naming of newly elected directors will be on the agenda when the Circleville Area Chamber of Commerce Board meets Tuesday at the Pickaway Arms for its monthly session.

Committees reporting will be the Airport, By-laws, City-County Planning, Education and Program panels.

The session will start at 11:45 a. m.

Kingston News Report

By Miss Margaret Thomas
Phone NI 2-3495

Several members from Kingston Chapter No. 411, Order of Eastern Star are attending Grand Chapter in Cleveland this week. Mrs. Frank Graves and Mrs. Clarence Maxson left for Cleveland on Sunday.

Mrs. Maxson is a member at Adelphi. Mrs. William Meadows, Mrs. Bert Jackson and Mrs. Ralph Yingling left Monday morning. Mrs. Yingling was to be hostess at the reception Wednesday afternoon for the Grand Warder, Mrs. Irene Tornburg of Chillicothe.

Several more Kingston members are planning to attend later in the week for the reception and the Installation of Grand Chapter officers.

Mrs. William Boggs invited Kindergarten children and a few other friends of her daughter, Suzanne, to a birthday party for her on Oct. 20. She received many gifts from the more than 30 youngsters. The guests were given favors and a small gift to take home. Cookies, and ice cream with a witches' hat and cool ade were served.

Mr. and Mrs. W. R. Sunderland were Sunday guests of their cousins, Mr. and Mrs. R. W. Wells in Troy.

Mrs. Wendell Braden from Columbus spent part of the week with her parents, Mr. and Mrs. Car Hohenstein. Her husband, Mr. Braden, came later and spent the weekend here.

Mrs. C. H. Groene, who lives in Winter Haven, Fla., arrived Friday to spend a few days with her sister - in - law, Mrs. Carson Dresbach. Mr. Dresbach is ill in Chillicothe Hospital.

Mrs. Claude Reynolds had an overnight guest on Friday, Mrs. Herbert Pfaltzgraph and daughter, Nancy and granddaughter, Marjorie Lynn from Columbus. Mrs. Reynolds returned home with her guests Saturday to spend a few days.

Col. and Mrs. John H. Ellis from Washington D. C. visited with his father, Mr. D. C. Ellis last week and took him with them when they went to Miami University, Oxford, to spend the weekend. They returned home Monday.

Dr. and Mrs. J. C. Harmon of Everett, Pa., were expected to arrive Tuesday to spend a few days with Mrs. Harmon's sister, Miss Mildred Holderman.

Mrs. Lawrence Betz had a guest from Canton, Mrs. Preston, on Tuesday night.

Mr. and Mrs. Larry Watts of Saginaw, Mich., spent the past week with their parents, Mr. and Mrs. Jack Donahue, Mrs. Curtis Routh and Mr. Routh. They also attended the Pumpkin Show.

Mrs. Marc Schneider and Mrs. Pearl Lakes from Hamilton and Mrs. Frances Neeley from Lexington, Ky., spent several days last week with Mrs. Schneider's brother and wife, Mr. and Mrs. Lawrence Betz, On Sunday the Betzes and their

guests and Mrs. Effie Wolfe from California, and Bob Wolfe from Columbus spent the day with the Haecck family at their summer cottage in Vinton County. The group enjoyed a covered dish dinner.

Mr. and Mrs. William Minshall and sons, Bill, Danny and Terry from Hillsboro were Sunday dinner guests of his brother and wife, Mr. and Mrs. George Minshall and family. Other guests were Mr. and Mrs. Kennedy Shell of Five Points and Mrs. Marvin Routh of Circleville.

The Bill Minshall family were Sunday evening guests of Mr. and Mrs. William Meadows and Bob.

Mrs. Herbert Lemley and Miss Joann Lemley were dinner guests Wednesday evening and all day guests on Thursday of Mrs. Lemley's mother, Mrs. Thad Dowler, in Chillicothe. Mrs. Dowler's brother, the Rev. Harry L. Stevens of Pineville, W. Va., was also a visitor. He is pastor of the Rock Castle Baptist Church there.

Hocking Oil Supply Boost Seen Possible

COLUMBUS, Ohio (AP) — A study by the U. S. Bureau of Mines says petroleum production in the Logan oil field in Hocking County could be prolonged by pumping water underground to make crude oil flow through its reservoir toward producing wells.

The evaluation is given in a new technical report published by the Department of the Interior bureau as part of its effort to increase recovery of oil and gas.

The bureau explains that in oilfields of the Logan field type 75 to 95 per cent of the original oil may remain trapped underground after natural pressures are depleted. Only by fracturing the producing formation of this field with hydraulic pressures was it possible to raise initial production per well to the 40 - to 70-barrels-a-day range, the report said. Production since then has declined to less than 10 barrels a day.

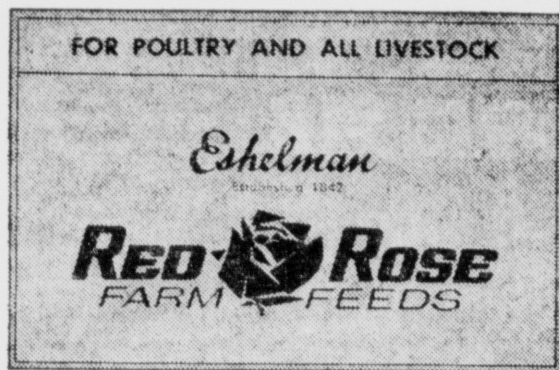

To reach their conclusion, bureau petroleum engineers assembled extensive information from oil production histories, well drilling logs, core sample analyses, and from laboratory investigations. On the basis of studies, the engineers concluded that water flooding could raise ultimate recovery to 75 per cent of the oil originally in the reservoir.

A pilot waterflood project is recommended in the report to permit definitive evaluation of the oil field's secondary recovery potential.

A report on the investigation of the field, the bureau said, is available from its office in Pittsburgh under the title of "Oil - Reservoir Analysis and Predicted Recovery by Waterflooding, Clinton Sand, Logan Oilfield, Hocking County, Ohio."

Ohio Election Tuesday Draws National Interest

COLUMBUS, Ohio (AP) — A congressional contest, a sales tax increase and mayor's races in Cleveland, Dayton, Akron and Toledo spark national interest in Ohio's election Tuesday.

Voters in Ohio's 7th Congressional District will name a successor to the late U. S. Rep. Clarence J. Brown, a 27-year veteran of Congress and ranking Republican on the House Rules Committee.

Statewide interest centers in an initiated proposal for a boost in Ohio's 3 per cent retail sales tax to 4 per cent to get an estimated \$116 million more a year for public schools.

Negroes claim their chances are good in Cleveland and Dayton to elect mayors for the first time.

In Akron, home town of GOP National Chairman Ray C. Bliss, Republicans are making a strong bid to elect a GOP mayor for the first time in a dozen years.

And in Toledo, home town of John S. Andrews, who took over as GOP state chairman when Bliss moved up, Republicans seek re-election of a mayor in that nominally Democratic city. It will be the first direct election of a mayor there in 30 years.

Secretary of State Ted W. Brown clung to his prediction of 2.7 million votes to surpass the previous odd-year high of 2,638,484 in 1963.

The state's 13,448 polling places will be open between 6:30 a.m. and 6:30 p.m. on election Day.

Two other statewide issues propose changes in Ohio's constitution.

One would allow creation of urban service authorities for joint operation of water, sewer, park, transportation and other systems in 13 populous counties.

The other would permit judges in counties of less than 40,000 population to serve more than one court.

The school lobby proposal to increase Ohio's sales tax is in the form of an initiated law, placed on ballots by petition after rejection in the recent legislative session.

The sponsoring Ohio Council for Education, composed of 10 school groups, termed inadequate a record \$820 million school appropriation by the last legislature, \$108 million above the previous two-year total.

All three issues require a favorable majority by those voting for approval.

The sales tax proposal flies in the face of Gov. James A. Rhodes announced stand against new or increased taxes to spur industrial growth.

In the 7th Congressional District, Clarence Brown Jr., 38, Urbana publisher and radio station owner, swamped six opponents to win the GOP nomination for the seat in the U. S. House of Representatives held so long by his late father.

Brown's opponent for an unexpired term ending Jan. 3, 1967, is Clark County Prosecutor James A. Berry, 35, Springfield, who got a campaign assist from a visit by Vice President Hubert H. Humphrey and a letter of encouragement from President Johnson. The winner is expected to seek a full two-year term next year.

Many politicians of both parties look to the outcome to indicate a possible trend for national congressional elections next year.

In Akron, mayoral opponents are former Summit County Prosecutor John S. Ballard, Re-

publican who sought the U. S. senatorial nomination in 1962, and Ray C. Sheppard, law director under Democratic Mayor Edward O. Erickson, who did not seek re-election.

ILN Cleveland, populous Democratic stronghold, incumbent Mayor Ralph S. Locher has three opponents, two of them members of his own party. They are Negro State Rep. Carl B. Stokes, 38, and attorney Ralph A. McAllister, 37, both running as independent Democrats to get on the November ballot.

The lone Republican is Cuyahoga County Auditor Ralph J. Perk, 51, a five-term city councilman whose platform includes a non-new-tax plank. Locher, 50, mayor since 1962, is a former aide to Frank J. Lausche, Ohio's only five-term governor and now U.S. Senator. McAllister, during service on Cleveland's school board, gained a reputation for standing up to civil rights groups. He has scoffed at reports that Locher was running ahead and decried what he termed a "scare campaign" calling for safety in the streets.

Stokes, an attorney, said he counts on Negroes for "my base vote" but asserted that "any Negro who thinks he is going to get Negro votes just because he is a Negro is in for a rude awakening."

Altogether 15,000 local offices will be filled in the election and 1,200 local tax evies, bond issues and various other issues will be decided, Brown figures.

State Board of Education members will be chosen in nine congressional districts for six-year terms.

In Dayton, five candidates seek three City Commission posts with the top vote-getter in line to succeed Mayor Frank R. Somers, who did not run again.

Incumbent Don L. Crawford, first Negro city commissioner, is making a strong bid to be the first of his race to become Dayton mayor.

How Weather Looks Today

CENTRAL OHIO—Fair and mild tonight and Sunday. Low tonight 40. High Sunday 65.

NORTHWEST, NORTHEAST, EAST-CENTRAL OHIO — Fair and not so cool tonight, low near 40, Sunday partly cloudy and continued mild.

SOUTHWEST OHIO—Fair and not as cool, low 36-43 tonight. Sunday mostly sunny and mild.

SOUTHEAST OHIO—Fair and mild tonight and Sunday. Low tonight 38-43. High Sunday 63-68.

Ohio Election Tuesday Draws National Interest

COLUMBUS, Ohio (AP) — A congressional contest, a sales tax increase and mayor's races in Cleveland, Dayton, Akron and Toledo spark national interest in Ohio's election Tuesday.

Voters in Ohio's 7th Congressional District will name a successor to the late U. S. Rep. Clarence J. Brown, a 27-year veteran of Congress and ranking Republican on the House Rules Committee.

Statewide interest centers in an initiated proposal for a boost in Ohio's 3 per cent retail sales tax to 4 per cent to get an estimated \$116 million more a year for public schools.

Negroes claim their chances are good in Cleveland and Dayton to elect mayors for the first time.

In Akron, home town of GOP National Chairman Ray C. Bliss, Republicans are making a strong bid to elect a GOP mayor for the first time in a dozen years.

And in Toledo, home town of John S. Andrews, who took over as GOP state chairman when Bliss moved up, Republicans seek re-election of a mayor in that nominally Democratic city. It will be the first direct election of a mayor there in 30 years.

Secretary of State Ted W. Brown clung to his prediction of 2.7 million votes to surpass the previous odd-year high of 2,638,484 in 1963.

The state's 13,448 polling places will be open between 6:30 a.m. and 6:30 p.m. on election Day.

Two other statewide issues propose changes in Ohio's constitution.

One would allow creation of urban service authorities for joint operation of water, sewer, park, transportation and other systems in 13 populous counties. The other would permit judges in counties of less than 40,000 population to serve more than one court.

The school lobby proposal to increase Ohio's sales tax is in the form of an initiated law, placed on ballots by petition after rejection in the recent legislative session.

The sponsoring Ohio Council for Education, composed of 10 school groups, termed inadequate a record \$820 million school appropriation by the last legislature, \$108 million above the previous two-year total.

All three issues require a favorable majority by those voting for approval.

The sales tax proposal flies in the face of Gov. James A. Rhodes announced stand against new or increased taxes to spur industrial growth.

In the 7th Congressional District, Clarence Brown Jr., 38, Urbana publisher and radio station owner, swamped six opponents to win the GOP nomination for the seat in the U. S. House of Representatives held so long by his late father.

Brown's opponent for an unexpired term ending Jan. 3, 1967, is Clark County Prosecutor James A. Berry, 35, Springfield, who got a campaign assist from a visit by Vice President Hubert H. Humphrey and a letter of encouragement from President Johnson. The winner is expected to seek a full two-year term next year.

Many politicians of both parties look to the outcome to indicate a possible trend for national congressional elections next year.

In Akron, mayoral opponents are former Summit County Prosecutor John S. Ballard, Re-

NE Ohio Due To End Fast Time Sunday

CLEVELAND (AP) — Ohio's annual confusion about what time it is where ends at 2 a.m. Sunday.

More than 100 northeast Ohio communities will set their clocks back one hour as they switch from Eastern Daylight to Eastern Standard Time.

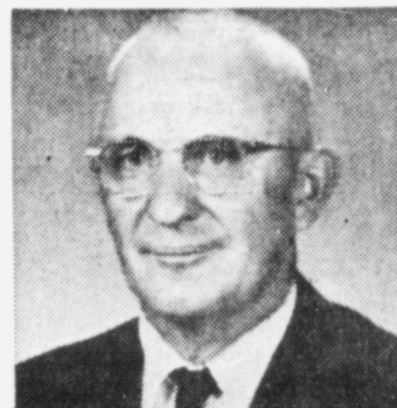

In Ohio, 226 cities and communities in all or part of 21 counties are included in the daylight time belt.

A few time spots in northeast Ohio such as Holmesville in northern Holmes County went back to standard time at the end of September.

Adding to the confusion, the Southeast School District in Wayne County started the school year with standard time while communities within the district were still using "fast" time.

Also, all cafes and taverns in the state are required to operate on standard time, which has given them an extra hour to serve drinks in "fast" time zones for the past six months.

Capital Outlays Spurt

Capital spending statistics are one of the most closely watched economic barometers, for a number of good reasons.

Confidence on the part of the business community is most directly reflected by its willingness to invest large sums of money in new plants and equipment. And capital spending forms a cushion against inflationary pressures when factories begin to approach maximum production.

Spending for capital items in 1965 is overreaching all earlier forecasts. The total this year will be a new record, up considerably from the record set in 1964. Since 1963 capital spending has increased by nearly 50 per cent, one indicator of the strength of the current boom.

Various economists predict this year's spending will total from \$50.4 billion to \$51.7 billion, up from \$44.9 billion in 1964. Whichever pair of rose-colored glasses one wears, an increase of 12 to 15 per cent seems assured. The government has revised its own forecasts made in February — upward.

Even with the increased capital

spending, the economy may be heading into inflationary problems in some sectors because demand exceeds output. Estimates are that factories are now operating at or near 90 per cent of capacity. Remaining at this level of production historically has meant a new wave of inflation.

As the chief economist for the National Industrial Conference Board commented on the current capital boom:

"It is primarily the current and prospective strength of private industry's outlays for new plants and equipment that reinforces the prevailing view of further economic growth but at a slower and hence more sustainable rate in the months ahead . . . an early fore-runner of downturn in the past has been the postponement or curtailment of investment decisions. This trend is not yet present nor does it seem imminent."

In short, increasing capital spending is in itself a harbinger of economic news to come. A good way to end 1965 is to lay a firm foundation for further economic growth in 1966. That is what American business is doing.

Boosting Draft Calls

That the Viet Nam War will increasingly affect the lives of the American people is graphically apparent in draft calls. Selective Service will call up 45,224 men in December, highest total since 53,000 were drafted in May, 1953.

With more than 130,000 already there, more men are being committed to

South Viet Nam, and Washington is escalating the build-up of all services so there will be no weakening of forces elsewhere.

No easing of draft calls is expected while the fighting in Viet Nam continues. Future calls almost certainly will continue to grow.

'Home Front Traitorism' Studied

By Hal Boyle

NEW YORK (AP) — While some Americans are dying in combat in far away Asian jungles, others at home are getting their exercise by walking around carrying placards reading "Get out of Viet Nam."

No American probably would rather get us out of Viet Nam more than the one who is over there doing his sweaty duty.

During a recent visit to Viet Nam, I asked many soldiers what their reaction was to the campus agitation back home against our military policy.

Surprisingly, I found it rather tolerant.

"That's kid stuff," some said.

"Anyway, it's a free country." But there was a point at which their wry amusement ceased. That was when they read that some protesters were raising funds to send medical supplies to the Viet Cong.

Invariably this stirred honest anger in every serviceman I talked to. They regarded such efforts as a form of home front traitorism that gave aid and comfort to the enemy. They felt such efforts were a danger to their own existence.

The right of protest against the conduct of his government is a right inherent to every man. But the present minority pro-

test against U.S. policy in Viet Nam has assumed a sinister pattern, in some cases.

It is not mere college cuteness that puts out information to young men on how they can beat the draft. This is a step against the pattern of our survival as a nation and the government has a right to act in its own self-defense.

There is a difference between the conscientious objector who refuses combat duty because it violates his religious principles, and one who seeks to avoid service because he is a coward or finds such service uncomfortable.

It is quite possible to serve one's country without pulling a trigger. But it is another thing to avoid serving one's country by feigning illness or pretending homosexuality.

Such advice is being issued to our youth from some quarters, and this is an act of conspiracy against our national safety. Those who give such counsel are available to legal punishment.

I happen to know of one young man who escaped military service by pretending to be a homosexual. He was exceptionally brilliant, and I never knew for sure whether he did what he did because he was a coward or because he thought he was being clever.

He managed to fool the draft board, but he could not fool himself—nor could he fool his friends.

His folly ruined his life. He became a prisoner of his own shame and guilt and came to hate himself utterly. And these feelings will kill any man's possibility of achievement.

After World War II, hundreds of workers toiled for years to put surviving material in the proper place for the reconstruction of the Benedictine Order's most revered monastery, the Abbey of Montecassino in Italy. It had been bombed. Italy made the abbey a national monument in 1866.

Several CHS teachers planned to attend clinics and meetings at Ohio State University.

TEN YEARS AGO Five Circleville High School students had taken the first test in a series of steps in competition for the National Merit Scholarship examinations.

Graduates of the Class of 1955 of Everts High School and sixth-graders of High Street school met at the Wardell Party Home for a class reunion.

Three girls were initiated into Girl Scout Brownie Troop 28 at a recent investiture ceremony.

TWENTY-FIVE YEARS AGO An additional 115 selective service cards from registrants outside the county was received at the local draft board office.

The Knickerbocker Quartet was appearing at the Circleville High School auditorium in the first program of the Kiwanis Club fall festival series.

Mayor W. B. Cady, appointed Dr. E. S. Shane and Leroy T. Shaner to the Circleville Board of Health.

Speaking of YOUR HEALTH...

By LESTER L. COLEMAN, M.D.

My wife is petrified of needles. Even though sugar was found in her urine, she refuses to go to a diabetes doctor because she does not want to take insulin injections.

Mr. K.L.N., Ohio Dear Mr. N.: I don't know anyone who really enjoys "needles." But it is difficult to believe that an adult would actually stake her health against only the possibility that she might need insulin injections.

The fact that sugar was once found in her urine is not proof she is a diabetic. A one-time finding of sugar is not necessarily an indication of trouble. But certainly the test should be repeated.

Now let us suppose your wife does not have diabetes. By refusing to seek a positive diagnosis, she is subjecting both herself and her family to devastation by fears of nonexistent disease. She is living in dread of a vague threat of the unknown — a threat that is probably undermining her health and doing far more damage than a disease itself.

Now let us suppose that your wife is found to be a diabetic. Many cases of diabetes can be controlled by diet alone, especially when diagnosis is made early. Many more diabetics can be kept in good health by the combination of rigid diet and a drug taken by mouth.

A recent study by Dr. Henry Dolger of the Mt. Sinai Hospital in New York City gave positive proof that an oral drug can control diabetes in a large percentage of cases. Of the 155 diabetics who were given the drug (tolbutamide), almost 80 per cent were kept completely under control with this drug.

On the basis of the excellent results of this careful study, Dr. Dolger and his colleagues came to a conclusion which I hope will impress your wife and alleviate her fears. They found that in many cases of diabetes the oral drug is the most effective form of treatment and often eliminates the need for injections. Some patients were even able to relax their diets without endangering health.

You must try to impress on your wife the need for a more mature attitude toward all illness — real or imaginary. Once she comes face to face with the problem, her anxiety about it will disappear. She must not

allow her physical and emotional health to be threatened by uncontrolled, unproven fears.

Sympathetic understanding and encouragement from you may induce her to seek the medical advice she is avoiding. Unfortunately, many people delay going to a doctor for fear of having their suspicions confirmed or denied. This kind of attitude is unwise from every point of view.

If illness does exist, early diagnosis offers the best chance for prompt control or cure with simple treatment.

If illness is nonexistent, the patient can be spared needless anxiety about "ghosts" of disease.

The patient who refuses to seek medical help when he feels it may be needed jeopardizes his own health, his own happiness and the happiness of his entire family.

The Business World

By Sam Dawson

NEW YORK (P) — American corporations will have about \$45 billion in profits left over this year after they've paid their income and other taxes. What are they going to do with the money?

Well, just like your paycheck, it can go mighty fast these days.

First, American stockholders — perhaps some 20 million individuals today — are counting on year-end extras to boost already rising quarterly pay-out rates. This could increase this year's dividend payment total perhaps as high as \$20 billion. It was \$17.2 billion in 1964.

You're Telling Me!

By William Ritt
Central Press Writer

A Las Vegas hotel now provides via closed television, to all its guest rooms, instruction on roulette, black-jack and crap shooting. Don't know how this'll work out but it looks like a good gamble.

One of the nicest things about October, according to Milt, the sterling printer, is that it marks the final disappearance for the year of the bore who is always asking: "Is it hot enough for you?"

Old-fashioned household gadgets are said to be enjoying a return to popularity. Could be — but, so far, we haven't noticed any demand for the return of the mustache cup.

When a bull escaped from the Cleveland stockyards, squads of police pursued it on motorbikes, in patrol cars and even a helicopter. Looks like everybody tried to horn into the act.

Women may now dry and set their hair quickly, thanks to a new electric comb that generates up to 240 degrees of heat. Now that's what we call a really hot idea!

That would leave American corporations some \$25 billion of retained earnings, up from \$20 billion a year ago.

While some companies will boost their cash reserves or buy stocks and other securities for investment, industry as a whole will be spending a lot more than \$25 billion this year for new ventures of one sort or another, as well as for increased activity in present fields. And industry will be borrowing billions because profits in themselves aren't enough to foot the bills for its expansion plans.

Investment this year in new plants and equipment is estimated by the Department of Commerce at \$51 billion. This would be 13.4 per cent more than in 1964.

The \$25 billion in retained profits obviously won't meet that bill. But it makes American corporations good credit risks for banks to lend money on —

and their loans to business have been higher this year than last. Various individual and institutional investors also will consider this year's record profits as justification for furnishing corporations with new funds by buying their bonds, debentures, or IOUs. And any issues of new stocks would look just that much better to investors.

Profits and spending can feed on each other. Many corporate boards of directors may increase their spending plans still more now that their firms are doing so well — and this will mean more outflow of cash, and more borrowing.

It doesn't stop at the sea shores. American companies now expect their foreign branches, subsidiaries, or joint ventures to spend about \$7.4 billion on plant and equipment this year. This would be an increase of \$1.3 billion, or 20 per cent, over 1964 outlays.

Letter To The Editor

To the Editor:

I ask each registered voter of the Circleville City School District to vote yes on Issue No. 1 on Nov. 2. This issue is vital to financial support for public education in Ohio.

Each time a local issue for increased school support is presented, we hear the argument that the property tax is always the one to support education and that there ought to be another way to make funds available.

Now, another way is offered — a chance to provide another means of support. If the dollars do not come from the State level by the one-cent sales tax increase, they must come from local sources, which can only be additional real estate taxes.

The Circleville City Schools will benefit by an amount equal to 3.7 mills or approximately \$132,000 if Issue No. 1 passes.

No one argues against the need for additional funds. The only argument we hear is the method used to obtain them. Everyone agrees that a method

to relieve real estate taxes must be established.

No one has provided a more acceptable method for securing education funds than the sales tax. The machinery is already established to collect the sales tax, thus saving additional dollars for establishing administrative agencies, it would be necessary for a different type of tax collection.

Rejection of this issue will not mean "no new taxes." It will mean either additional real estate taxes or lower educational standards for Ohio. Your support is needed. Do not be misled by the statement that Ohio would lose industry by a sales tax increase.

More important is the fact that industry now located in Ohio might leave if educational standards do not continue to improve or if they might possibly decline.

For children's sake, vote yes on Issue No. 1.

They found that in many cases of diabetes the oral drug is the most effective form of treatment and often eliminates the need for injections. Some patients were even able to relax their diets without endangering health.

You must try to impress on your wife the need for a more mature attitude toward all illness — real or imaginary. Once she comes face to face with the problem, her anxiety about it will disappear. She must not

allow her physical and emotional health to be threatened by uncontrolled, unproven fears.

Sympathetic understanding and encouragement from you may induce her to seek the medical advice she is avoiding. Unfortunately, many people delay going to a doctor for fear of having their suspicions confirmed or denied. This kind of attitude is unwise from every point of view.

If illness does exist, early diagnosis offers the best chance for prompt control or cure with simple treatment.

If illness is nonexistent, the patient can be spared needless anxiety about "ghosts" of disease.

The patient who refuses to seek medical help when he feels it may be needed jeopardizes his own health, his own happiness and the happiness of his entire family.

The Business World

By Sam Dawson

NEW YORK (P) — American corporations will have about \$45 billion in profits left over this year after they've paid their income and other taxes. What are they going to do with the money?

Well, just like your paycheck, it can go mighty fast these days.

First, merican stockholders — perhaps some 20 million individuals today — are counting on yearend extras to boost already rising quarterly pay-out rates. This could increase this year's dividend payment total perhaps as high as \$20 billion. It was \$17.2 billion in 1964.

That would leave American corporations some \$25 billion of retained earnings, up from \$20 billion a year ago.

While some companies will boost their cash reserves or buy stocks and other securities for investment, industry as a whole will be spending a lot more than \$25 billion this year for new ventures of one sort or another, as well as for increased activity in present fields. And industry will be borrowing billions because profits in themselves aren't enough to foot the bills for its expansion plans.

Investment this year in new plants and equipment is estimated by the Department of Commerce at \$51 billion. This would be 13.4 per cent more than in 1964.

The \$25 billion in retained profits obviously won't meet that bill. But it makes American corporations good credit risks for banks to lend money on —

and their loans to business have been higher this year than last. Various individual and institutional investors also will consider this year's record profits as justification for furnishing corporations with new funds by buying their bonds, debentures, or IOUs. And any issues of new stocks would look just that much better to investors.

Profits and spending can feed on each other. Many corporate boards of directors may increase their spending plans still more now that their firms are doing so well — and this will mean more outflow of cash, and more borrowing.

It doesn't stop at the seashores. American companies now expect their foreign branches, subsidiaries, or joint ventures to spend about \$7.4 billion on plant and equipment this year. This would be an increase of \$1.3 billion, or 20 per cent, over 1964 outlays.

You're Telling Me!

By William Ritt
Central Press Writer

A Las Vegas hotel now provides via closed television, to all its guest rooms, instruction on roulette, black-jack and crap shooting. Don't know how this'll work out but it looks like a good gamble.

One of the nicest things about October, according to Milt, the sterling printer, is that it marks the final disappearance for the year of the bore who is always asking: "Is it hot enough for you?"

Old-fashioned household gadgets are said to be enjoying a return to popularity. Could be — but, so far, we haven't noticed any demand for the return of the mustache cup.

When a bull escaped from the Cleveland stockyards, squads of police pursued it on motorbikes, in patrol cars and even a helicopter. Looks like everybody tried to horn into the act.

Women may now dry and set their hair quickly, thanks to a new electric comb that generates up to 240 degrees of heat. Now that's what we call a really hot idea!

Bible Class To Meet

The Westminster Bible Class of the First Presbyterian Church will meet 7:30 p. m. Tuesday in the home of Mrs. Robert Pickens, 137 Park Place.

Dear Abby: By Abigail Van Buren

She Welcomes Snorer

DEAR ABBY: The people who wrote in complaining about snoring mates don't know how lucky they are. All my life I dreamed about having a man sleeping next to me. So what if he snores? Just as long as he's there—and breathing.
“OLD MAID”

DEAR ABBY: My husband has always bought me gifts of clothing. Clarence knows my dress size, shoe size, glove size, and my most becoming hats have been gifts from him. I think he has excellent taste, and whenever anyone compliments me on my clothes, I proudly say, “Clarence bought it for me.”

Recently a good friend of mine said that men who bought their wives gifts of wearing apparel were really ashamed of them and tried to make them look better. She said that men married to beautiful women weren't aware that they needed anything.

I thought it over, and had to admit that the wives whose husbands bought them wearing apparel weren't exactly beauties. What do you think, Abby?

PLAIN JANE
DEAR JANE: Men who buy their wives gifts of wearing apparel do so because they know that nothing delights a woman more. You may be Plain Jane, but your “friend” is Plain Jealous.

DEAR ABBY: I am 22 years old and am happily married to a wonderful man. We both want children very much but we cannot have them. (My fault.) Since we can't have children of our own, we would like to adopt one or two. Our problem is when I was 16 I had a baby out of wedlock at a home for unwed mothers. (I gave it up for adoption.) It was at this home that I learned how strict the adoption agencies were about choosing parents for their babies. Only those with the best character could get a child. If

my husband and I qualified in every other way, would we be disqualified because of what happened in my past?

WANTS A FAMILY
DEAR WANTS: This would depend on the agency. Some agencies do not regard an incident that took place when a girl was 16 as a character blemish if she managed to make a constructive life for herself afterwards.

DEAR ABBY: About the lady who signed herself “Annoyed” because her husband stopped at the same restaurant so many times during the day for “coffee.” I had the same problem with my husband. Only I found out it wasn't the coffee-maker who drew him. It was the book-maker. Have you ever heard of a coffee-colored horse?

ALSO ANNOYED
DEAR ALSO: Yes. And it is pronounced “pal-o-mino.” Although it's obviously no pal-oyours, either.

DUV Meet Slated

The Katherine Wolfley Hedges Tent Daughters of the Union Veterans of the Civil War will meet 7:30 p. m. Wednesday in the home of Mrs. Clara DeLong 118 Seyfert Ave.

Club Meeting Set

The Child Advancement Club will meet Wednesday at Prairie Lanes. The session will start at 7:30 p. m.

For a party at which you are serving fruit compote, you might like to put the compote in frosted sherbet glasses. Dip the edge of each sherbet glass in lemon juice, then in granulated sugar; chill in the refrigerator so the frost will “set.”

Ground liver called for in a recipe? If you give the liver a quick dunk in boiling water, it will be easy to put through the food chopper.

PCC Lady Golfers Set Fall Roundup

The Women's Golf Assn. of the Pickaway Country Club will hold its annual Fall Roundup beginning 11 a. m. Thursday at the club house.

A carryin buffet luncheon will begin the day's activities.
A brief business session, which will include election of officers for the coming year, will follow the luncheon.

A short tournament of “goofy golf” will end the roundup, weather permitting. Bridge will be scheduled in case of bad weather.

Salem WSCS Meet

The Salem WSCS will meet 7:30 p. m. Thursday in the home of Mrs. George Minshall, Route 1, Kingston. Mrs. Ned Boldoser will be assisting hostess.

Solaqua Garden Club To Meet at Robtown

The Solaqua Garden Club will meet 1:30 p. m. Friday in the Robtown EUB Parish Hall. Mrs. Lee Downs, Mrs. Grace Stout and Mrs. Harry Trump will serve as co-hostesses.

USE THE CLASSIFIEDS

BIRTHDAY OBSERVED — Five generations were present when Josie Gulick of Circleville observed her 82nd birthday. They are pictured above, left to right, seated, Gladys Rutter, Josie Gulick and Lori Coleman; standing Marcella Puckett and Zona Coleman, Williamsport. The party was held in the home of Mr. and Mrs. Mack Gulick and family, Route 1. Other guests present were Mr. and Mrs. Willard Congrove and family.

HERE'S THE "STORY" FOLKS!

Everyone who takes an interest in politics must take ACTION! We cannot change anything by ONLY complaining. This election is your LAST CHANCE to do something besides grumble.

You have told me: ---

- (1) That the present Mayor will do nothing unless he is strongly pushed,
- (3) That he was elected through the popularity of a famous entertainer,
- (3) That he promised jobs to campaign workers, but didn't pay off,
- (4) That he has “City Service Department” employees passing political campaign cards,
- (5) That his job appointments are based only on party politics, and not on a man's qualifications.

These are your complaints! You have called a spade, “a spade”! Your DUTY is now very clear. As a LOYAL and PATRIOTIC “Citizen of Circleville”, you must vote for me!

EARL BOEN
REPUBLICAN, FOR MAYOR

History Center Site Is Selected

CANTON, Ohio (AP) — The Ohio Historical Society has decided to build the new Ohio Historical Center on land owned by the State of Ohio north of 17th Avenue in the Ohio Exposition complex (state fairgrounds).

The decision was made Friday by the society's board of trustees at their quarterly meeting in the Stark County Historical Center in Canton.

A preliminary survey, selection of an architect, and preparation of plans will be inaugurated at once in conjunction with the Ohio Department of Public Works, trustees said.

Civil Rights Training Institute Is Opened

NEW YORK (AP) — A civil rights leadership training institute has been opened to serve as an educational service to the existing civil rights organizations here. Director Robert Curvin said the group would function primarily in Harlem and would be open to any member of the community.

Noted OSU Diving Star Dies Unexpectedly

COLUMBUS, Ohio (AP) — Miller Anderson, 42, of Columbus, former Ohio State University diving star, died of a heart attack Friday in University Hospital. He was national AAU diving champion in 1949, and in 1952 earned a place on the U.S. Olympic diving team.

ON SALES STAFF — Josef Louis of New Holland has been added to the general sales staff of the Federal Chemical Co. of Columbus. He has 29 years experience in servicing dealers and farmers in Ohio and nearby states.

3.5 Million Kids Seek \$2 Million

UNITED NATIONS, N.Y. (AP) — It was tough going for a young cerebral palsy victim, but last year Douglas Bell collected nearly \$25 from his neighbors in Fort Lauderdale, Fla., to help suffering children in other lands.

This year, Douglas asked the U.N. Children's Fund for two collection baskets. This weekend he will join some 3.5 million youngsters in 13,000 American communities on a Halloween venture expected to bring in more than \$2 million.

The custom began in Philadelphia 15 years ago when members of a Sunday School class decided to collect pennies for needy kids abroad instead of candy for themselves. They sent UNICEF a check for \$17.

The movement caught on fast and soon churches, schools and civic groups throughout the

country were sending forth legions of small fry armed with orange and black UNICEF cartoons each Halloween.

"We are hopeful that the award of the Nobel Peace Prize to UNICEF will make people even more generous this year," said Ellen Kaplan, information officer of the U.S. Committee for UNICEF.

Even as the little spooks prepared for their rounds, a thorny issue arose that almost demands the United Nations to solve it: Should they go "trick-or-treating" on Sunday night, which is Halloween, or on Saturday night?

Communities across the United States are busy choosing a night on which to observe Halloween.

The U.S. committee for UNICEF believes many children will be out Sunday night. The

Parochial School Board in New York said the timing was up to parents.

In Miami, Mayor Chuck Hall is urging children to go out Saturday night so they will be rested for school Monday. But in Miami Beach, Police Chief Rocky Pomerance said "the kids try to spread it out all weekend."

Trick or treat money and about \$1.5 million derived from the annual sale of Christmas

cards help swell UNICEF's income which totaled \$32.9 million in 1964. The money goes toward UNICEF's missions of mercy which include medical care and food for more than 56 million children and mothers in 118 countries.

Factions in Dominica Still at Boiling Point

SANTO DOMINGO, Dominican Republic (AP) — Six months after the April revolution began, the Dominican Republic seems a long way from peace and only a grenade-throw away from violence.

Despite a laboriously fashioned "act of national reconciliation," the factions involved in the bloody fratricide are still at each other's throats. Their differences seem to grow daily, hardening into a formidable barrier to peace.

This is because the Organization of American States and the contending sides worked out a settlement based more on exhaustion than on good faith.

The ultimate solution may be unpalatable to both: full occupation of the country by OAS forces under a modified form of trusteeship.

The alternative seems to be a patchwork solution that at long range will solve nothing.

Those are the conclusions of many prominent Dominicans and some diplomats who viewed the OAS peace formula only with mild enthusiasm when it was signed Aug. 31.

To them, the 10-part settlement lacked machinery to implement the peace formula conditions, particularly civilian disarmament; the verification of this disarmament, and the reintegration of the armed forces and national police.

In what may have been haste to get the squabble out of sight, the cleanup was left to a government barely out of swaddling clothes.

Compounding the OAS formula shortcomings, its critics argue, were the vacillations of a competent lawyer and diplomat suddenly thrust into the strange world of Dominican politics — Provisional President Hector Garcia-Godoy.

In trying to please everyone, the placid, amiable president seems to have alienated both sides. His Cabinet abounded in professionals, avowedly political independents, with rebel inclinations.

This frightened the military. It found a sympathetic response for its fears among rightist political leaders who felt betrayed when Garcia-Godoy pledged to create a broad-based government in which leftists and rightists could work in harmony.

A prominent Latin-American diplomat says the president put too much faith in the word of rebel leaders, notably Col. Francisco Caamano Dengo, in carrying out the civilian disarmament plan. Although Caamano reported a weapons clean up had been completed in the rebel sector, the diplomat said, "the truth was that they hid 60 per cent of their arms."

Relations between the military and the civilian population, in Santo Domingo at least, have been a story of abiding hostility and nearly nonstop violence. This was what fueled the April revolt. The President's decision not to change the military leadership brought increased pressures from the rebel side. This only widened the gap. The situation worsened in the wake of the ouster of Gen. Elias Wessin y Wessin, an anti-Communist militant. There were clashes involving Wessin's men and pro-rebel civilians.

The current crisis reached its climax when Garcia-Godoy ordered troops into a downtown fortress the rebels regarded as a shrine.

The situation brought back to Santo Domingo the OAS Political Committee that forged the original peace formula. It resulted in sending inter-American peace force troops into the heart of the city — an area rebel leaders had sworn never would be touched by foreign boots.

The heart of the crisis is whether Garcia-Godoy should reshuffle his Cabinet to give it semblance of impartiality, or, if he should fire the military chiefs.

Views on Television — Radio

HOLLYWOOD (AP) —Honey West may change all that nonsense that a woman's place is in the home. She's the swingiest gal in television.

The television female, usually restricted to apron-wearing matrons or sunny Miss Fixits, is getting a new image this season in the admirable form of Anne Francis. As the star of ABC's "Honey West," she serves up judo chops instead of light suppers.

The show has come in for its own share of lumps, some critics finding the plots wildly improbable, with action, intrigue and drama crammed into a too-fast 26 minutes. But the series appears to be holding its own against the potent "Gomer Pyle" in the ratings.

Miss Francis, a 13-year veteran of the film studios, thinks "Honey West" has a lot going for it, as the popular trade expression goes.

"There must be a lot of ladies in the audience who would like to slug their husbands," she reasons, "and they can get a vicarious thrill watching me chopping men—I've had fights in every show so far."

"We also stress the glamor side, and I think husbands like that. Teen-agers and girls can identify with a girl who leads an adventurous life. And usually I get beaten up in the stories. Let's face it: There are a lot of men around who get their kicks out of watching that."

If "Honey West" sounds like a strenuous show for a girl to do, it is. Anne had been working a 14 to 18 hour day and finally had to cut it down to 12. Even though she has a double to perform in the long shots, Anne must do the closeups of the fights herself, and it's rough stuff.

Dog Owners Reminded of Amended Law

Ralph Wallace, Pickaway County dog warden, today reminded dog owners or keepers of their responsibilities as prescribed by law.

Wallace referred to an amended section of the Ohio Revised Code relative to these responsibilities. The amendment was adopted by the last session of the General Assembly and made effective Sept. 1 of this year.

According to the section, owners or keepers of dogs shall at all times keep them confined upon premises of the owner or under reasonable control of some person, except when lawfully engaged in hunting accompanied by an owner or handler.

The section also notes it shall be unlawful for owners or keepers to permit female dogs to go beyond the premises any time they are in season, unless the animals are properly in leash.

Wallace said the new law supersedes city ordinances and regulations pertaining to canines.

Custody Fuss Is Linked To Slaying

CHATTANOOGA, Tenn. (AP) —William H. Patterson, 49, involved in a long custody dispute over a 10-year-old girl, was shot and killed Friday as he ran away from a car at a parking lot here.

The other party to the custody dispute, Ohioan James H. Broyles, 37, was later charged with murder. Broyles, from Cleveland, surrendered to police.

Witnesses said Patterson ran from the parked car after scuffling with its lone occupant. They said three pistol shots were fired at him as he ran.

The long dispute had its origin in 1956, when Dorothy Ann Broyles, then 18 months old, reportedly was given by her parents to Patterson and his late wife.

A family spokesman said the Pattersons gained legal custody of the child in a Georgia court in 1959. Patterson lived in Wildwood, Ga., but was an employee of a Chattanooga electrical company.

A year later, Mrs. Patterson charged that Mr. and Mrs. Broyles and two unidentified men kidnaped the child. The next day, Mrs. Broyles acknowledged that she and her husband had the girl, but denied they had kidnaped her.

The Pattersons were later granted custody of the child by a Cleveland judge.

In 1965, the White House Christmas party was so gay that Thomas Jefferson was moved to play lively tunes on his violin.

Electronic Gear May Help Hopelessly Blind To See

MEXICO CITY (AP) — A Mexican team has invented an electronic device that bypasses the eye and sends light signals directly to the brain. The team hopes it may eventually be developed to help the hopelessly blind.

Dr. Armando del Campo, a professor at the National University, says the device now is in the experimental stage and is too large and bulky.

In time, he said, it may be possible to refine the machine down to a portable size to be used much as the deaf use hearing aids.

He and four aides developed the device recently after years of work.

The machine is called an amauroscope, from the Greek "amaurosis," meaning blindness, and "skopec" — to see.

Del Campo says the system is basically a series of photo receiving elements that catch light and send it directly to the brain through five intermediate circuits without passing through the eyes. Wires are attached to the skull of the patient.

Dr. Enrique Wudka, an eye specialist, says the impulses sent through the wires enable a blind person to distinguish between light and shadow. In experiments, blind persons have had a sense of seeing flashes of light going on and off.

Del Campo says the experiments lead him to hope that hopelessly blind can count on some help in the future. But he agrees with Wudka that much remains to be done.

The studies and experiments with blind people were carried out at the Faculty of Sciences of National University and in the laboratories of Mexico's largest television system, Telesistema Mexicana, S.A. A government grant for further experiments is expected.

Collaborating with Del Campo are Jorge Arias Pandal and Juan Guerrero y Coaffier, students at the university; Alejandro Guerrero y Coaffier of the Institute of Monterrey; and Abelardo Medina y Diaz Infante of the National Polytechnic Institute.

Man Ruled Guilty Of Manslaughter

CINCINNATI (AP)—A probation investigation has been ordered for Roy C. Byrd, 24, convicted of first degree man slaughter in the death of a Hamilton man.

Judge William J. Keating convicted Byrd, of Cincinnati, Friday in Hamilton County Common Pleas Court. The case was heard without a jury.

Testimony showed Byrd struck Frank Samples, 63, owner of a Cincinnati tavern last Dec. 27 while trying to get back into the cafe after being thrown out. Samples died on Jan. 8.

Byrd contended at the trial he tried to go back inside the tavern to get his coat, and that Samples swung at him first.

Tiger Gridders Uncoil in Second Half

McClain Beaten As Dade Romps

By STEVE JONES

Circleville High School's Tigers, in a high scoring, wild and wooly football game last night, defeated visiting Greenfield McClain, 41-22.

Senior halfback Howard (Hodge) Dade led the Tigers in their final South Central Ohio League contest. He ripped through opposition for 235 yards and four touchdowns.

And Mike Ramey, picked up 103 yards as he pounded the center of the Greenfield McClain line. He scored one touchdown.

	C	G
First downs passing	6	4
First downs rushing	16	5
First downs by penalties	1	0
Total first downs	23	9
Net yards passing	0	151
Net yards rushing	359	9
Total yards gained	359	160
Interceptions by	0	2
Passes attempted	6	31
Passes completed	0	13
Fumbles	4	4
Fumbles lost	3	4
Punts	1(30)	4(35)
Penalty yardage	10	35

Circleville tallied on two quick moves at the beginning of the game. And Bob Tootle booted two extra points, giving the Tigers a 14-0 lead.

THE FIRST score came on a 44-yard run by Dade on the second play.

Just two minutes later, Dade scored again, this time on a 21-yard gallop. This tally was set up by Tom Fletcher's recovery of a fumble at the Greenfield 43 yard line.

The suddenness of those two tallies made it look as though the Red and Black would make it a rout.

But suddenly the defense, which on so many occasions during the year has carried the game for the Tigers, fell apart.

After scoring the first two times they had the ball, Circleville saw Greenfield put together a 63-yard drive. The last 30 yards were covered by a pass from Dave Elberfeld to Bill Damron. Rick Smith scored a two-point conversion to make the score 14-8.

The ensuing kickoff was fumbled by Circleville and Harold Hiles, Greenfield center, fell on the ball at the Tiger 32.

SEVEN PLAYS later, Elberfeld again hit Damron in the clear and the McClain halfback raced into the end zone. The play covered 19 yards.

Jim Kensing booted the ball through the upright to put the visitors ahead.

The next McClain touchdown came with 3:17 to go in the half. Rick Smith intercepted one of three passes tossed by Dan Gibbs, Circleville quarterback, and raced 75 yards to pay dirt. Kensington again booted the extra points and the visitors were on top, 22-14. One McClain block took out two Circleville defenders who stood between Smith and the goal line.

Following that spectacular play, Circleville came up with one of their own.

Kensington blasted his kickoff to the Tiger 10, where Hodge Dade gathered it in, followed his blockers through the bulk of the

McClain team, headed for the right sidelines and outran the last man between him and the goal to score.

THE TIGERS tried to knot the count with a pass play for the extra points, but were unsuccessful. At halftime, the scoreboard stood at 22-20 and it looked like anybody's ball game.

In the first period, McClain gained 25 yards rushing and 37 through the air. Circleville had 93 yards, all on the ground.

The second quarter saw the McClain team held to a minus nine yards on the ground, but they picked up 88 through the air. In all they gained 144 yards.

The Tigers had 158 yards in the evenly matched beginning.

The second half was all Circleville. Greenfield was held to a minus 25 yards rushing and picked up only 26 through the air as they were shutout by the rejuvenated CHS defense.

The Tigers, on the other hand, rammed through the Greenfield forward wall for 167 yards, scoring three touchdowns.

THE FIRST of the Tigers scores came after Tom Fletcher recovered a Greenfield fumble at the Circleville 13.

With 6:19 to go in the third period, Hodge Dade skipped through Greenfield defenders to the one-yard line. An illegal motion penalty moved the ball back to the six, and on a deceptive bit of ball handling, Tim Stonerock carried into the end zone untouched, with 4:57 showing in the period. Tootle booted the extra point.

The Red and Black kicked off, held the visiting Tigers on downs, and then took over on their own 33 following Kensington's punt.

It took just four plays to go the distance. Ramey carried for six, Hodge Dade combined runs of 17 and 12 yards, then lost two, and Ramey exploded through the middle, eating up 34 yards on the surprised McClain team for the score. Again, Tootle converted, with 57 seconds remaining in the third quarter.

The final score for Circleville was set up when Jim Noel recovered a fumble near midfield.

Hodge Dade capped the 51-yard scoring drive with an eight yard romp off right tackle. Tootle converted, and the score stood at 41-22 with more than seven minutes to go.

The remainder of the game was a standoff battle. Both coaches substituted freely during the closing minutes.

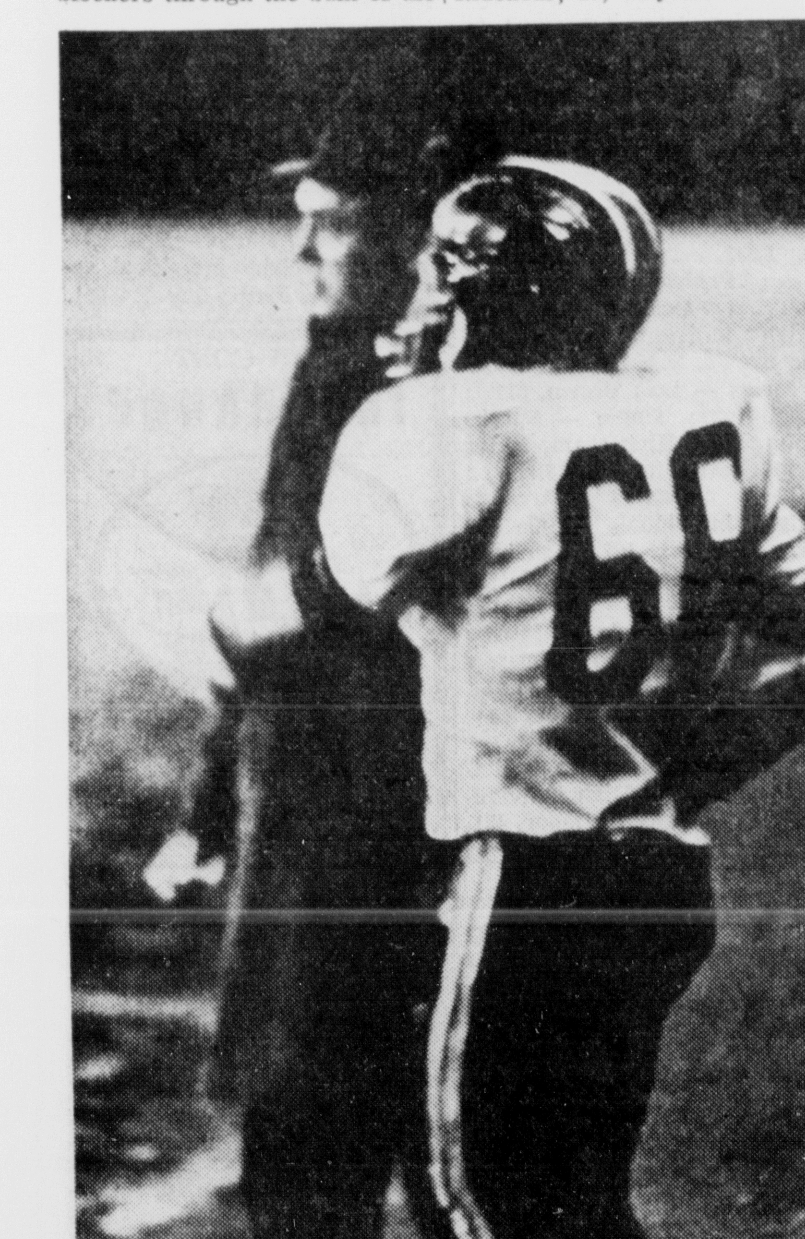

Delaware Girl Named As Queen at OSU

COLUMBUS, Ohio (AP) — A pretty 20-year-old Delaware girl was crowned Homecoming Queen at Ohio State University Friday night.

Sherri Phillian, a home economics major, was crowned by University President Novice Fawcett. Runners-up, in order of voting, were Pat Brennan, 19, Chagrin Falls; Marianne Leon, 19, Rayland; Sharon Slabaugh, 19, Columbus; and Leslie Ridenour, 19, Dayton.

Next week Circleville is at Franklin Heights.

The Circleville Junior High School football team will host J. A. Smith of Chillicothe 4 p. m. Wednesday. The visiting school is undefeated and Chillicothe residents are so proud they are broadcasting the action, live, from Circleville.

PEP TALK — Coach "Hoss" Starr and senior linebacker John Funk (66) confer on the sidelines during the game. Last night was Funk's last league game. Other seniors are Doug Pontious, Hodge Dade, Mike Ramey, Bill Brock, and Gary Hughes.

Tiger Pointers

What kind of a halftime adjustment did CHS Coach Paul Starr tell his team to make after the defense leaked through 3 touchdowns and 155 yards? None.

"That was probably the shortest halftime talk I ever gave a team," Starr said. "I'll bet it didn't last five minutes. I guess I said more in fewer words than ever before."

Associate coach Dick Fisher said it actually lasted less than 30 seconds.

"Our mistakes killed us that first half, but we came back and played a good second half," Starr explained. "And we finally got well on our offense."

"We just let up in that first half. I keep telling the boys you can't let up at all. You've gotta squeeze that other team all the time."

The game was full of unusual surprises. An official was injured shortly after the tilt started and time was called while he was patched up. Later the same official was run down by a Circleville and McClain player going for a pass.

Dogs usually run on the field during the season. But one pup last night sat all alone in the bleachers, watching part of the game.

Rick Smith, Greenfield player who was hauled from the field in an ambulance fortunately was not seriously hurt. He was released from Berger Hospital after an examination by a physician disclosed no injuries.

The air was crisp and cold and fumbles and dropped passes were fairly common. The CHS Tigers bobbled four and lost three. McClain fumbled four and lost four. In addition, a number of other handoffs in both backfields were never completely under control.

If last week's crowd at Hillsboro was one of the smallest Tiger followings for a road game in the memory of local fans, the game last night must have been one of the smaller home field crowds.

The McClain team brought few fans, and the bleachers on the north side of the Tiger field showed plenty of unoccupied seats. And Circleville's own cheering section was by no means filled.

There was, of course, the usual group of "end zone fans" hanging on the fence at the west end of the field. But even with them included, there must have been less than 1,800 at the game.

And the weather, though cold and brisk, was by no means unpleasant. In addition, the two teams put on an exciting display of football, particularly during the first three quarters.

Next week Circleville is at Franklin Heights.

The Circleville Junior High School football team will host J. A. Smith of Chillicothe 4 p. m. Wednesday. The visiting school is undefeated and Chillicothe residents are so proud they are broadcasting the action, live, from Circleville.

BROKEN FIELD — Howard Dade (49), Circleville halfback, puts on a show of speed as he breaks into the clear. Bill Damron (35), a big man on Greenfield, pursues from across the field. Hodge gained 235 yards last night, one of the biggest single performances of his career.

BEFORE THE FALL — Here is a different look at the game. The Tigers have the ball and Greenfield cracks the line. Circleville gained 359 yards rushing last night but didn't complete a pass.

Mustangs Stop Bearcats, Play Unioto for SVC Title

Westfall's rejuvenated Mustangs swamped Paint Valley, 30-0, last night on the Bearcats' field to remain in contention for the Scioto Valley Conference title.

After losing their first five games of the season, the Mustangs have now won three in a row, including two league contests.

Piketon '11 Stops Braves In 36-6 Bout

Redstreak Gridder Sustains Broken Leg in Encounter

Piketon ripped through Logan Elm's defenses last night to defeat the host Braves by a 36-6 count.

It was the third consecutive loss for Logan Elm in the Scioto Valley Conference. Piketon has lost one and tied one in SVC play.

The Red Streaks wasted no time in taking a commanding lead. They scored two touchdowns in the first period and added the conversions both times.

By halftime they were on top, 28-0. As the final period got under way, Coach Ron Jones' team was leading by 36-0.

FOR THE Braves, the lone touchdown came in the final period when Dale Jenne hit Buddy McAfee with a 35-yard scoring pass.

The longest run of the night was a 65-yard gallop by Piketon's Earl Willson, who played an outstanding game for the visitors.

Piketon substituted freely during the second half. Although the Red Streaks won the game, they lost a player. Larry Keese was admitted to Berger Hospital with a broken leg.

themselves. All I do is stand on the sidelines and yell. They do the playing."

Westfall will have the home-field advantage Friday when they meet the Shermans. In the first game between the two schools Unioto won by a 24-0 count.

Both were considered "also rans" at the beginning of the year as conference coaches were in near unanimous agreement that Logan Elm and Piketon would be battling for the title again this season as they have in almost every year the SVC has been in existence.

But both the Red Streaks and the Braves are out of the league picture at present.

UofC Students Prefer Mid-Am

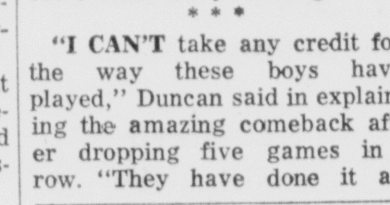

CINCINNATI (AP)—Some of the students at the University of Cincinnati apparently are dissatisfied with their football team's Missouri Valley Conference schedule and would prefer to see the Bearcats pitted against teams in the Mid-American Conference.

The UC News-Record, weekly campus newspaper, reported Friday that a poll of 100 students, selected at random, showed 70 preferred a hypothetical schedule which included six Mid-American teams to UC's present schedule.

The only Mid-American school regularly scheduled by the UC football team is Miami University.

"I CAN'T take any credit for the way these boys have played," Duncan said in explaining the amazing comeback after dropping five games in a row. "They have done it all

Stubborn Vikings Edged by Panthers In 6-0 Battle

A stubborn Teays Valley football team held Pleasant View to one touchdown last night, but failed to score as the visiting Panthers wrapped up the South Suburban League title with a 6-0 victory.

Pleasant View has a 3-0 SSL record, and has won five and lost three overall. Teays Valley finished the loop schedule with an 0-3 mark and has two wins against six losses.

Next week, Teays Valley will close out the season by hosting Pickerington.

The Vikings' performance against Pleasant View was rated their outstanding effort of the season.

Whetstone Coach Is Grad of CHS

Whetstone High School cross country coach Roger Wolfe is a graduate of Circleville High School.

Wolfe guided his harriers to a city championship and a second place finish yesterday in the district meet.

Wolfe is in his second year at Whetstone where he also coaches track and teaches driver education.

Before going to the Columbus school, he was an assistant coach at Teays Valley High School.

He is the son of Mr. and Mrs. Bernard D. Wolfe, 358 E. Mound St.

Gary Player Wins Australian Title

ADELAIDE, Australia (AP) — South African Gary Player won the Australian open title at Adelaide to day by six strokes with a four round total of 264. Australian Frank Phillips and American Jack Nicklaus were second with 270s. Nicklaus shot a final round of 71.

Circleville tallied on two quick moves at the beginning of the game. And Bob Tootle booted two extra points, giving the Tigers a 14-0 lead.

THE FIRST score came on a 44 yard run by Dade on the second play.

Just two minutes later, Dade scored again, this time on a 21-yard gallop. This tally was set up by Tom Fletcher's recovery of a fumble at the Greenfield 43 yard line.

The suddenness of those two tallies made it look as though the Red and Black would make it a rout.

But suddenly the defense, which on so many occasions during the year has carried the game for the Tigers, fell apart.

After scoring the first two times they had the ball, Circleville saw Greenfield put together a 63-yard drive. The last 30 yards were covered by a pass from Dave Elberfeld to Bill Damron. Rick Smith scored a two-point conversion to make the score 14-8.

The ensuing kickoff was fumbled by Circleville and Harold Hiles, Greenfield center, fell on the ball at the Tiger 32.

SEVEN PLAYS later, Elberfeld again hit Damron in the clear and the McClain halfback raced into the end zone. The play covered 19 yards.

Jim Kensingier booted the ball through the upright to put the visitors ahead.

The next McClain touchdown came with 3:17 to go in the half.

Rick Smith intercepted one of three passes tossed by Dan Gibbs, Circleville quarterback, and raced 75 yards to pay dirt. Kensingier again booted the extra points and the visitors were on top, 22-14. One McClain block took out two Circleville defenders who stood between Smith and the goal line.

Following that spectacular play, Circleville came up with one of their own.

Kensingier blasted his kickoff to the Tiger 10, where Hodge Dade gathered it in, followed his blockers through the bulk of the

McClain team, headed for the right sidelines and outran the last man between him and the goal to score.

THE TIGERS tried to knot the count with a pass play for the extra points, but were unsuccessful. At halftime, the scoreboard stood at 22-20 and it looked like anybody's ball game.

In the first period, McClain gained 25 yards rushing and 37 through the air. Circleville had 93 yards, all on the ground.

The second quarter saw the McClain team held to a minus nine yards on the ground, but they picked up 88 through the air. In all they gained 144 yards.

The Tigers had 158 yards in the evenly matched beginning.

The second half was all Circleville. Greenfield was held to a minus 25 yards rushing and picked up only 26 through the air as they were shutout by the rejuvenated CHS defense.

The Tigers, on the other hand, rammed through the Greenfield forward wall for 167 yards, scoring three touchdowns.

THE FIRST of the Tigers scores came after Tom Fletcher recovered a Greenfield fumble at the Circleville 13.

With 6:19 to go in the third period, Hodge Dade skipped through Greenfield defenders to the one-yard line. An illegal motion penalty moved the ball back to the six, and on a deceptive bit of ball handling, Tim Stonerock carried into the end zone untouched, with 4:57 showing in the period. Tootle booted the extra point.

The Red and Black kicked off, held the visiting Tigers on downs, and then took over on their own 33 following Kensingier's punt.

It took just four plays to go the distance. Ramey carried for six, Hodge Dade combined runs of 17 and 12 yards, then lost two, and Ramey exploded through the middle, eating up 34 yards on the surprised McClain team for the score. Again, Tootle converted, with 57 seconds remaining in the third quarter.

The final score for Circleville was set up when Jim Noel recovered a fumble near midfield.

Hodge Dade capped the 51-yard scoring drive with an eight yard romp off right tackle. Tootle converted, and the score stood at 41-22 with more than seven minutes to go.

The remainder of the game was a standoff battle. Both coaches substituted freely during the closing minutes.

Mustangs Stop Bearcats, Play Unioto for SVC Title

Westfall's rejuvenated Mustangs swamped Paint Valley, 30-0, last night on the Bearcats' field to remain in contention for the Scioto Valley Conference title.

After losing their first five games of the season, the Mustangs have now won three in a row, including two league contests.

The loop record for the Joe Duncan coached squad stands at two wins and one loss. Next week they face Unioto's Sheremans in a game that will decide the championship.

A win for the Mustangs will earn them the title. The Sheremans have won two and tied one and currently hold the conference lead.

WESTFALL romped for 235 yards on the ground and 153 through the air.

Touchdowns were scored by halfback Ray Mowery, who raced 65 yards, and Dick Cook who snared a 35-yard pass from quarterback Gary Liff, by Liff himself on a two-yard-plunge, and by Danny Bowen, senior fullback who bulled 2 yards for the fourth.

Bowen also added four points on conversions and Brad Thompson crossed the goal line for a two-pointer.

On offense, Coach Duncan cited senior guard Jim Garrett, Bowen, Mowery and Cook as outstanding performers.

His defensive standouts were 200-pound middle guard Norm O'Conner who made 16 tackles and had four assists, Gene Justice, a 175 pound tackle and Garrett.

"O'Conner just lived in their backfield all night long," Duncan said. "And that Jim Garrett is nothing but 155 pounds of mean."

Garrett has been one of the outstanding linemen for Duncan's team all year long.

"I CAN'T take any credit for the way these boys have played," Duncan said in explaining the amazing comeback after dropping five games in a row. "They have done it all themselves. All I do is stand on the sidelines and yell. They do the playing."

Stubborn Vikings Edged by Panthers In 6-0 Battle

A stubborn Teays Valley football team held Pleasant View to one touchdown last night, but failed to score as the visiting Panthers wrapped up the South Suburban League title with a 6-0 victory.

Pleasant View has a 3-0 SSL record, and has won five and lost three overall. Teays Valley finished the loop schedule with an 0-3 mark and has two wins against six losses.

Next week, Teays Valley will close out the season by hosting Pickerington.

The Vikings' performance against Pleasant View was rated their outstanding effort of the season.

THEIR defensive unit gave up a single touchdown, then successfully contained junior quarterback Charlie Hess and the Panthers' highly touted passing game.

Ed Bowers, senior fullback for the Panthers, scored on a five-yard plunge. His jaunt capped a 50-yard second quarter drive.

It was Homecoming at the Viking gridiron and an interesting halftime show was presented by the TV band.

It was a "blacklight" program, and the theme was taken from Mary Poppins.

Lights were doused for the program. Only persons dressed in fluorescent costumes were visible to the fans.

The show began with Mary Poppins descending from a utility pole to the theme of the Walt Disney movie of the same name.

The Homecoming queen was Sophia Hoover, a senior. Attendants were Linda Bisker, freshman; Claudia Lough, sophomore, and Brenda Edmonds, a junior.

Here's How Ohio Top Teams Fared

COLUMBUS, Ohio (AP) — Here's how the top ten teams in the AP Class AA poll fared Friday night:

1. Massillon, defeated Warren Harding, 16-12.
2. Sandusky, defeated Fremont Ross, 54-0
3. Warren, lost to Massillon, 16-12.
4. Middletown, defeated Hamilton Taft, 12-8.
5. Upper Arlington, defeated Delaware Hayes, 28-8.
6. Cincinnati Moeller, plays Sunday.
7. Columbus Watterson, plays tonight.
8. Steubenville, defeated Toledo Scott, 42-28.
9. Athens, defeated Pomeroy, 68-0.
10. Dover, lost to Ashland, 26-12.

Gary Player Wins Australian Title

ADELAIDE, Australia (AP) — South African Gary Player won the Australian open title at Adelaide to day by six strokes with a four round total of 264. Australian Frank Phillips and American Jack Nicklaus were second with 270s. Nicklaus shot a final round of 71.

117,000 Fans To See New York Grid Games

By THE ASSOCIATED PRESS
Green Bay, Cleveland, San Diego and Buffalo have grabbed most of the pro football glory this season.

But New York, with one so-so team and another still seeking its first victory, will hold the spotlight Sunday — at least in the box office league.

The Giants, 3-3 in National Football League competition, play the St. Louis Cardinals at Yankee Stadium with a capacity crowd of some 62,000 expected. The Jets, 0-5-1 in the American Football League, anticipate about 55,000 for their game against the Denver Broncos at Shea Stadium.

This will be the first time this year the two clubs have had home engagements on the same day.

Green Bay's Packers, 6-0 and the NFL's only unbeaten team, meet the Bears at Chicago and the Cleveland Browns, leader of the NFL Eastern Division with a 5-1 record, are home to the Minnesota Vikings.

The San Diego Chargers, lone undefeated AFL club with five victories and two ties, entertain one of the teams they deadlocked, Boston's winless Patriots. Houston's Oilers will be at Buffalo to take on the Bills, 6-1 and front-runner in the AFL's Eastern Division.

Also on Sunday's full schedule

— Baltimore at San Francisco, Dallas at Pittsburgh, Detroit at Los Angeles and Philadelphia at Washington in the NFL, and Oakland at Kansas City in the AFL.

The Packers, with some uncharacteristic scrambling, have had some squeakers. But they come to the midpoint of the season with that perfect record, and it would be no earth-shaking surprise if they kept it going all the way. They have already scored a 24-13 victory over the Bears, who have rebounded to win three straight and even their record at 3-3.

Baltimore is one game behind the Packers in the West and the Colts also have beaten Sunday's opponent, the 49ers, in their earlier meeting.

The Cleveland - Minnesota game is an interdivisional affair. The Vikings have been up and down, alternately exploding and being exploded against. Jim Brown's superb running, Frank Ryan's passing and a good defense give Cleveland the balance to control things and keep Minnesota from breaking loose. The Cardinals, 4-2, fell behind Cleveland in the East last week when they were upset by Washington 24-20. But quarterback star Charley Johnson missed that one with an injured shoulder, and should be starting against the Giants.

It could be a very miserable day for the Patriots at San Diego, since the Chargers likely will be out to get even — or worse — for the surprising 13-13

tie at Boston who weeks ago. The Chargers and the Bills have commanding leads in their divisions, which means it would take some resounding reversals to liven up the races.

Buffalo, for example, has a 2-6 game edge on its closest rival, the Oilers, who take on the Bills Sunday. San Diego's nearest pursuer is Oakland, at 4-2-1.

For Circleville
BOARD OF EDUCATION

- I Stand for:
1. Better vocational education for the 75% of our freshman class who will not be going to college.
 2. Published financial reports on our school athletic program to better satisfy the supporters of athletics.
 3. An expanded summer school program available to all, regardless of ability to pay tuition fees.
 4. Full use of our school facilities to meet community needs.
 5. Formation of a student council, with faculty advisors, to help with student government.
 6. Hiring of teachers on a basis of merit, without prejudice as to where they have taught in the past.
 7. Trying to solve the transportation problem that will arise with the opening of our new centrally-located High School on the city limits of Circleville.

Your Vote and Support Appreciated

117,000 Fans To See New York Grid Games

By THE ASSOCIATED PRESS
 Green Bay, Cleveland, San Diego and Buffalo have grabbed most of the pro football glory this season.

But New York, with one so-so team and another still seeking its first victory, will hold the spotlight Sunday—at least in the box-office league.

The Giants, 3-3 in National Football League competition, play the St. Louis Cardinals at Yankee Stadium with a capacity crowd of some 62,000 expected. The Jets, 0-5-1 in the American Football League, anticipate about 55,000 for their game against the Denver Broncos at Shea Stadium.

This will be the first time this year the two clubs have had home engagements on the same day.

Green Bay's Packers, 6-0 and the NFL's only unbeaten team, meet the Bears at Chicago and the Cleveland Browns, leader of the NFL Eastern Division with a 5-1 record, are home to the Minnesota Vikings.

The San Diego Chargers, lone undefeated AFL club with five victories and two ties, entertain one of the teams they deadlocked, Boston's winless Patriots. Houston's Oilers will be at Buffalo to take on the Bills, 6-1 and front-runner in the AFL's Eastern Division.

Also on Sunday's full schedule

— Baltimore at San Francisco, Dallas at Pittsburgh, Detroit at Los Angeles and Philadelphia at Washington in the NFL, and Oakland at Kansas City in the AFL.

The Packers, with some uncharacteristic scrambling, have had some squeakers. But they come to the midpoint of the season with that perfect record, and it would be no earth-shaking surprise if they kept it going all the way. They have already scored a 24-13 victory over the Bears, who have rebounded to win three straight and even their record at 3-3.

Baltimore is one game behind the Packers in the West and the Colts also have beaten Sunday's opponent, the 49ers, in their earlier meeting.

The Cleveland - Minnesota game is an interdivision affair. The Vikings have been up and down, alternately exploding and being exploded against. Jim Brown's superb running, Frank Ryan's passing and a good defense give Cleveland the balance to control things and keep Minnesota from breaking loose.

The Cardinals, 4-2, fell behind Cleveland in the East last week when they were upset by Washington 24-20. But quarterback star Charley Johnson missed that one with an injured shoulder, and should be starting against the Giants.

It could be a very miserable day for the Patriots at San Diego, since the Chargers likely will be out to get even—or worse—for the surprising 13-13 tie at Boston two weeks ago.

The Chargers and the Bills have commanding leads in their divisions, which means it would take some resounding reversals to live up to the races.

Buffalo, for example, has a 2½-game edge on its closest rival, the Oilers, who take on the Bills Sunday. San Diego's nearest pursuer is Oakland, at 4-2-1.

BOARD OF EDUCATION

I Stand for:

1. Better vocational education for the 75% of our freshman class who will not be going to college.
2. Published financial reports on our school athletic program to better satisfy the supporters of athletics.
3. An expanded summer school program available to all, regardless of ability to pay tuition fees.
4. Full use of our school facilities to meet community needs.
5. Formation of a student council, with faculty advisors, to help with student government.
6. Hiring of teachers on a basis of merit, without prejudice as to where they have taught in the past.
7. Trying to solve the transportation problem that will arise with the opening of our new centrally-located High School on the city limits of Circleville.

Your Vote and Support Appreciated

British To Use No Force in Rhodesian Fuss

SALISBURY, Rhodesia (AP)—Prime Minister Harold Wilson ruled out British military intervention in Rhodesia today as the two governments announced a royal commission would examine the problem of independence for the British colony.

The announcements came before Wilson's scheduled departure for London after a week of talks with Prime Minister Ian Smith.

At a news conference, Wilson said a period of time was needed before the African majority rule could take over in Rhodesia. This could not be measured by calendar time, he said. His remarks were reported by the South African Press Association.

He added that he believed a democratic solution of the Rhodesian crisis was possible.

The white Rhodesians were under self-delusion, he said, if they thought they could escape the consequences of any illegal action, he said, referring to the threat of a unilateral independence declaration by Smith's white minority government.

"These consequences should not be underrated," Wilson said.

The announcement of a royal commission took much of the sting out of the dispute over Rhodesia's future. Wilson and Smith disagreed on the exact terms of reference of the commission, but it assured that talks between Britain and Rhodesia would keep going.

This would make a unilateral declaration of independence by Smith unlikely.

A statement issued by the Rhodesian government said: "The British government suggested to the Rhodesian government the establishment of a royal commission to settle a constitution and to determine whether or not it was acceptable to the people of Rhodesia as a whole."

"The Rhodesian government rejected this but proposed instead the appointment of a joint royal commission to decide only the question whether or not the 1961 constitution, with adjustments to make the country independent, is acceptable to the people of Rhodesia as a whole."

"The joint royal commission proposed would consist of a chairman who would be Sir Hugh Beadle, the chief justice of Rhodesia and two other persons, one to be appointed by the Rhodesian government and one to be appointed by the British government."

Wilson, the statement continued, "has made it clear that he must secure his government's approval" of the Rhodesian proposals.

The British government's final rejection or acceptance was expected during the coming week.

Smith's white minority government is demanding independence for Rhodesia on the basis of the 1961 constitution.

The British government has refused to give Rhodesia, an internally self-governing colony, full independence until guarantees are provided opening the way for political power to the country's 4 million Africans. There are 225,000 whites in Rhodesia.

When they approached the vehicle, they said Keaton was apparently sleeping in the back seat. They said they took possession of a .22 caliber revolver and took him to the Green County Jail where he was incarcerated.

Both men stated that Keaton gave them "no trouble" when they ordered him out of the car. Watson also told the jury he gave Keaton's gun and the 22 cartridges he found in his pocket to Bureau of Criminal Investigation authorities at London. These items were entered into court record yesterday as plaintiff's exhibits.

Also giving testimony yesterday was Charles Wellman, funeral director and embalmer at the Deffenbaugh Funeral Home. He stated that he had taken a sample of Francis' blood at the funeral home and sent it to the BCI at London.

Shortly before adjournment yesterday, Sheriff Dwight Radcliff moved to the witness stand for the prosecution. He said he arrived at the scene of the shooting shortly after 2 a. m.

Sheriff Radcliff was also asked to identify several pictures of the body and cars involved in the case.

Radcliff is to be the first witness when court resumes on Monday.

Both deputies stated they spotted a 1957 Chevrolet with the license number that had been broadcast as that of Maurice Francis. The car was parked on a street in Jamestown.

prosecution. He lived in Williamsport at the time of the incident. He said he left the parking lot at work before his uncle did, although he saw him before he departed. He stated he arrived home at 1:15 a. m.

Wallace also testified that on his way home he saw the 1960 Chrysler, the one allegedly taken from Chillicothe, parked on the highway about one-half mile from Westfall High School. After he passed the parked vehicle, he noticed in his rear view mirror that the lights had been turned on and the car was following behind. He said he lost sight of the auto after he made a turn at the stop sign about four miles from the school.

Dr. Ray Carroll, county coroner, took the stand in the afternoon session. His testimony involved the approximate time of death and medical terminology to substantiate the time factors, along with several details concerning the autopsy and location of bullets in Francis' body.

Dr. Carroll, who was assisted in the autopsy by Dr. Carlos Alvarez, testified that it was his and his assistant's opinion that nothing could have been done to save the life of Francis due to the nature and location of the three bullet wounds. He said "the wounds would have been fatal under any circumstances."

The next two witnesses to offer testimony were Bruce Corrigan and Olie Watson, Green County deputies who arrested Keaton about 3 a. m. Mar. 23 in Jamestown.

Both deputies stated they spotted a 1957 Chevrolet with the license number that had been broadcast as that of Maurice Francis. The car was parked on a street in Jamestown.

U.S.-Moscow Consular Pact May Not Get Nod

WASHINGTON (AP)—Democratic Leader Mike Mansfield faces a tough decision on whether to seek Senate ratification of the controversial consular treaty with Moscow when Congress reconvenes in January.

The Montanan put the treaty on the shelf in the closing days of this year's session after 6 of the 19 members of the Senate Foreign Relations Committee registered opposition to it.

Although President Johnson submitted the treaty to the Senate June 12, 1964, 11 days after it was signed in Moscow, no attempt was made even to hold hearings. The presidential campaign was then in full swing and Republican congressional leaders had called the treaty a possible vehicle for Communist espionage and subversion.

Besides, two Democrats, Sens. Frank J. Lausche of Ohio and Thomas J. Dodd of Connecticut, both members of the Foreign Relations Committee, have said they will fight ratification.

The treaty would pave the way for the Soviet Union to open consular offices in cities like New York, San Francisco and Chicago, in exchange for U.S. consular offices in key Soviet cities. Johnson has said the pact will improve relations between the two countries and help ease East-West tensions.

Opponents have centered their attack on a provision that grants immunity from criminal prosecution, even for felonies, to officials and employees of U.S. and Soviet consulates.

The administration's problem is to muster the two-thirds majority of the Senate required for ratification.

Mansfield doubted he could turn the trick this year. Next year his troubles may be compounded because one-third of the Senate will be up for re-election.

There is a belief in some quarters that U.S.-Soviet relations would suffer greater damage if the treaty is called up for long and angry debate and fails of approval than if it is not called up at all.

Dodd told a reporter he doubts the Senate would approve the agreement.

Usually one of Johnson's strongest supporters, Dodd said the President "is mistaken in this case, and I hope he will not press for ratification."

"I support the President when he is right," Dodd said. "But he is not right. To bring this treaty up for brutal debate will do more harm than good."

"The American people feel Soviet consulates would be used as outlets for their propaganda and subversion."

Sen. Bourke B. Hickenlooper of Iowa, senior Republican on the Foreign Relations Committee, said in a separate interview he doubts the administration

has enough votes for ratification.

"Next year is an election year," Hickenlooper said. "There'll be considerable debate. A two-thirds majority will be very hard to get."

Chairman J.W. Fulbright, D-Ark., and a majority of the Foreign Relations Committee, urged approval as a means of easing friction between the two countries and of providing greater protection for American citizens who travel in the Soviet Union.

Fulbright noted the agreement does not authorize the opening, but provides the legal framework for their operation should they be opened.

Secretary of State Dean Rusk, in testimony before the committee, emphasized that when and where consulates would be opened would be the subject of careful negotiations between the two countries.

The limited number of officials and employees involved would not add to the United States' espionage problems, he said.

But opponents referred to FBI Director J. Edgar Hoover's statement that the consulates would make his problems more difficult.

News of World in Brief

SYRACUSE, N.Y. (AP)—David J. Miller, who gained nationwide attention last week when he publicly burned his draft card, is in jail today on conviction of charges stemming from a civil rights demonstration last spring.

Miller, 22 and a native of Syracuse, was sentenced to 30 days in jail Friday on conviction in city court of unlawful intrusion on private property.

The charge resulted from his part in a sit-in sponsored by the Congress of Racial Equality.

WASHINGTON (AP)—A conference between Soviet Ambassador Anatoly F. Dobrynin and Secretary of State Dean Rusk on disarmament and related matters brought "no changes in the position of either side," State Department press officer Robert J. McCloskey has reported.

McCloskey told a news conference after Friday's 13-minute meeting that it had been arranged by Rusk.

VANCOUVER (AP)—Prime Minister Lester B. Pearson told an election campaign rally Friday night Canada has not and will not send troops to fight in Viet Nam.

Canada's only obligation in Viet Nam is to carry out instructions from the United Nations "and that's all," he said in an address.

Canadians vote Nov. 8 for a new parliament.

ALGIERS (AP)—Communist China was reported today to have offered to take part in an African-Asian summit some time next year, provided the Soviet Union is not invited.

Reliable sources said the offer was contained in a message from Chinese Premier Chou En-lai to Algerian strongman Col. Houari Boumedienne.

The foreign ministers of the African-Asian nations were meeting today to decide what to do about the summit conference still scheduled to open Nov. 5 but threatened by a boycott by Red China and a growing number of her friends.

AMMAN, Jordan (AP)—Israeli and Jordanian forces clashed in a no-man's land today on the border in the Latroun area 10 miles west of Jerusalem.

A Jordanian spokesman said 15 Israelis were killed but Israel claimed there was only one Israeli casualty.

The fighting was halted after an hour and a half by the U.N. truce supervision mission in Jerusalem.

The Jordanian spokesman first reported two Jordanians killed but later revised this to say the Jordanians suffered no casualties.

PAINESVILLE, Ohio (AP)—A 55-year-old woman has been sentenced to one to 20 years in the Marysville Prison for Women in the slaying of her husband, Mrs. Gay Herron, grandmother of 20, pleaded guilty to a first-degree manslaughter charge Friday after a second-degree murder charge was reduced.

The shooting occurred at a motel in Perry Township near here, where the Herrons lived.

ELYRIA, Ohio (AP)—The trial for three members of the Lorain Civil Service Commission indicted last week for misdemeanors has been set for Nov. 15. They pleaded innocent in Common Pleas Court Friday to charges of willfully failing to require physical examinations and failing to use efficiency ratings in police department promotions.

British To Use No Force in Rhodesian Fuss

SALISBURY, Rhodesia (AP)—Prime Minister Harold Wilson ruled out British military intervention in Rhodesia today as the two governments announced a royal commission would examine the problem of independence for the British colony.

The announcements came before Wilson's scheduled departure for London after a week of talks with Prime Minister Ian Smith.

At a news conference, Wilson said a period of time was needed before the African majority rule could take over in Rhodesia. This could not be measured by calendar time, he said. His remarks were reported by the South African Press Association.

He added that he believed a democratic solution of the Rhodesian crisis was possible.

The white Rhodesians were under self-delusion, he said, if they thought they could escape the consequences of any illegal action, he said, referring to the threat of a unilateral independence declaration by Smith's white minority government.

"These consequences should not be underrated," Wilson said.

The announcement of a royal commission took much of the sting out of the dispute over Rhodesia's future, Wilson and Smith disagreed on the exact terms of reference of the commission, but it assured that talks between Britain and Rhodesia would keep going.

This would make a unilateral declaration of independence by Smith unlikely.

A statement issued by the Rhodesian government said:

"The British government suggested to the Rhodesian government the establishment of a royal commission to settle a constitution and to determine whether or not it was acceptable to the people of Rhodesia as a whole.

"The Rhodesian government rejected this but proposed instead the appointment of a joint royal commission to decide only the question whether or not the 1961 constitution, with adjustments to make the country independent, is acceptable to the people of Rhodesia as a whole.

"The joint royal commission proposed would consist of a chairman who would be Sir Hugh Beadle, the chief justice of Rhodesia and two other persons, one to be appointed by the Rhodesian government and one to be appointed by the British government."

Wilson, the statement continued, "has made it clear that he must secure his government's approval" of the Rhodesian proposals.

The British government's final rejection or acceptance was expected during the coming week.

Smith's white minority government is demanding independence for Rhodesia on the basis of the 1961 constitution.

The British government has refused to give Rhodesia, an internally self-governing colony, full independence until guarantees are provided opening the way for political power to the country's 4 million Africans. There are 225,000 whites in Rhodesia.

prosecution. He lived in Williamsport at the time of the incident. He said he left the parking lot at work before his uncle did, although he saw him before he departed. He stated he arrived home at 1:15 a. m.

Wallace also testified that on his way home he saw the 1960 Chrysler, the one allegedly taken from Chillicothe, parked on the highway about one-half mile from Westfall High School. After he passed the parked vehicle, he noticed in his rear view mirror that the lights had been turned on and the car was following behind. He said he lost sight of the auto after he made a turn at the stop sign about four miles from the school.

Dr. Ray Carroll, county coroner, took the stand in the afternoon session. His testimony involved the approximate time of death and medical terminology to substantiate the time factors, along with several details concerning the autopsy and location of bullets in Francis's body.

Dr. Carroll, who was assisted in the autopsy by Dr. Carlos Alvarez, testified that it was his and his assistant's opinion that nothing could have been done to save the life of Francis due to the nature and location of the three bullet wounds. He said "the wounds would have been fatal under any circumstances."

The next two witnesses to offer testimony were Bruce Corrigan and Olie Watson, Green County deputies who arrested Keaton about 3 a. m. Mar. 23 in Jamestown.

BOTH deputies stated they spotted a 1957 Chevrolet with the license number that had been broadcast as that of Maurice Francis. The car was parked on a street in Jamestown.

When they approached the vehicle, they said Keaton was apparently sleeping in the back seat. They said they took possession of a .22 caliber revolver and took him to the Green County Jail where he was incarcerated.

Both men stated that Keaton gave them "no trouble" when they ordered him out of the car. Watson also told the jury he gave Keaton's gun and the 22 cartridges he found in his pocket to Bureau of Criminal Investigation authorities at London. These items were entered into court record yesterday as plaintiff's exhibits.

Also giving testimony yesterday was Charles Wellman, funeral director and embalmer at the Defenbaugh Funeral Home. He stated that he had taken a sample of Francis' blood at the funeral home and sent it to the BCI at London.

Shortly before adjournment yesterday, Sheriff Dwight Radcliff moved to the witness stand for the prosecution. He said he arrived at the scene of the shooting shortly after 2 a. m.

Sheriff Radcliff was also asked to identify several pictures of the body and cars involved in the case.

Radcliff is to be the first witness when court resumes on Monday.

of 400 men that massed in the mountains late Friday for the assault.

The Viet Cong attack opened with recoilless rifle fire. Mortar fire followed. At the height of the clash, Marines engaged the Viet Cong in vicious hand-to-hand fighting in tents in the Marine bivouac area.

In other ground action, Viet Cong guerrillas attacked the U.S. Special Forces camp at Plei Me with mortar and small arms fire Friday night. The small arms fire continued into today.

The camp underwent a siege that was lifted early this week after battles estimated to have cost the Viet Cong 750 casualties.

U.S.-Moscow Consular Pact May Not Get Nod

WASHINGTON (AP)—Democratic Leader Mike Mansfield faces a tough decision on whether to seek Senate ratification of the controversial consular treaty with Moscow when Congress reconvenes in January.

The Montanan put the treaty on the shelf in the closing days of this year's session after 6 of the 19 members of the Senate Foreign Relations Committee registered opposition to it.

Although President Johnson submitted the treaty to the Senate June 12, 1964, 11 days after it was signed in Moscow, no attempt was made even to hold hearings. The presidential campaign was then in full swing and Republican congressional leaders had called the treaty a possible vehicle for Communist espionage and subversion.

Besides, two Democrats, Sens. Frank J. Lausche of Ohio and Thomas J. Dodd of Connecticut, both members of the Foreign Relations Committee, have said they will fight ratification.

The treaty would pave the way for the Soviet Union to open consular offices in cities like New York, San Francisco and Chicago, in exchange for U.S. consular offices in key Soviet cities. Johnson has said the pact will improve relations between the two countries and help ease East-West tensions.

Opponents have centered their attack on a provision that grants immunity from criminal prosecution, even for felonies, to officials and employees of U.S. and Soviet consulates.

The administration's problem is to muster the two-thirds majority of the Senate required for ratification.

Mansfield doubted he could turn the trick this year. Next year his troubles may be compounded because one-third of the Senate will be up for re-election.

There is a belief in some quarters that U.S.-Soviet relations would suffer greater damage if the treaty is called up for long and angry debate and fails of approval than if it is not called up at all.

Dodd told a reporter he doubts the Senate would approve the agreement.

Usually one of Johnson's strongest supporters, Dodd said the President "is mistaken in this case, and I hope he will not press for ratification."

"I support the President when he is right," Dodd said. "But he is not right. To bring this treaty up for brutal debate will do more harm than good."

"The American people feel Soviet consulates would be used as outlets for their propaganda and subversion."

Sen. Bourke B. Hickenlooper of Iowa, senior Republican on the Foreign Relations Committee, said in a separate interview he doubts the administration has enough votes for ratification.

"Next year is an election year," Hickenlooper said. "There'll be considerable debate. A two-thirds majority will be very hard to get."

Chairman J.W. Fulbright, D-Ark., and a majority of the Foreign Relations Committee, urged approval as a means of easing friction between the two countries and of providing greater protection for American citizens who travel in the Soviet Union.

Fulbright noted the agreement does not authorize the opening, but provides the legal framework for their operation should they be opened.

Secretary of State Dean Rusk, in testimony before the committee, emphasized that when and where consulates would be opened would be the subject of careful negotiations between the two countries.

The limited number of officials and employees involved would not add to the United States' espionage problems, he said.

But opponents referred to FBI Director J. Edgar Hoover's statement that the consulates would make his problems more difficult.

Circleville, McClain Bands Combine for Halftime Show

Grid fans attending the Circleville-Greenfield football game last night enjoyed the combined talents of two bands.

The Greenfield McClain Marching unit joined with Circleville for the pregame and halftime show. They merged for the playing of the National Anthem and flag raising, directed by Greenfield director Gerald J. Hewus.

During the pre-game festivities the CHS Corps formed an "X" on the field and urged the citizens to vote "yes" for State Issue 1.

Circleville high-stepped onto the field for the halftime show, South American Salute. The band, directed by Truman Eberly and led by drum major Lynn Rickey, played swift Latin-American music and formed the formations of a Spanish guitar and a sombrero.

THE BAND bowed its salute to South America and moved into a block "C" for the "Red and Black."

Miss Rickey, head majorette Linda Conrad and majorettes Linda Bowers, Linda Rhymer and Theresa Jones donned South American costumes for the halftime show.

Deaths

MRS. MARY F. HUBER
Mrs. Mary Florence Huber, 84, Route 4, died 7:45 p. m. yesterday in Berger Hospital.

She was born Aug. 20, 1881, in Wanut Twp. the daughter of George and Harriet Leazenbee Huber. She was the widow of Paul Albert Huber.

Mrs. Huber was a former member of the Evangelical Lutheran Church at Ringgold. She was a teacher in Columbus public schools. She was a graduate of Columbus Normal School, attended Ohio State University, Capital College of Oratory and Music, Duquesne University of Pittsburgh, Pa.

Mrs. Huber was the author of several gift books including "Silver Petals" and "The Golden Stairway" in addition to several songs and prose works.

Surviving are a brother, Charles M. Huber, 220 E. Mound St., several nieces and nephews.

Services will be 2 p. m. Monday at the Defenbaugh Funeral Home with Pastor Carl Zehner officiating. Burial will be in Reber Hill Cemetery.

Friends may call at the funeral home beginning noon Sunday.

Bogus \$20 Bill Found at 3rd Bank
A bogus \$20 bill turned up at the Third National Bank yesterday, Circleville Police said.

The serial number on the bill is L66570809. It is the third time in recent weeks a \$20 counterfeit bill has been discovered here.

News of World in Brief

SYRACUSE, N.Y. (AP)—David J. Miller, who gained nationwide attention last week when he publicly burned his draft card, is in jail today on conviction of charges stemming from a civil rights demonstration last spring.

Miller, 22 and a native of Syracuse, was sentenced to 30 days in jail Friday on conviction in city court of unlawful intrusion on private property.

The charge resulted from his part in a sit-in sponsored by the Congress of Racial Equality.

WASHINGTON (AP)—A conference between Soviet Ambassador Anatoly F. Dobrynin and Secretary of State Dean Rusk on disarmament and related matters brought "no changes in the position of either side," State Department press officer Robert J. McCloskey has reported.

McCloskey told a news conference after Friday's 13-minute meeting that it had been arranged by Rusk.

VANCOUVER (AP)—Prime Minister Lester B. Pearson told an election campaign rally Friday night Canada has not and will not send troops to fight in Viet Nam.

Canada's only obligation in Viet Nam is to carry out instructions from the United Nations "and that's all," he said in an address.

Canadians vote Nov. 8 for a new parliament.

ALGIERS (AP)—Communist China was reported today to have offered to take part in an African-Asian summit some time next year, provided the Soviet Union is not invited.

Reliable sources said the offer was contained in a message from Chinese Premier Chou En-lai to Algerian strongman Col. Houari Boumedienne.

The foreign ministers of the African-Asian nations were meeting today to decide what to do about the summit conference still scheduled to open Nov. 5 but threatened by a boycott by Red China and a growing number of her friends.

AMMAN, Jordan (AP)—Israeli and Jordanian forces clashed in a no-man's land today on the border in the Latroun area 10 miles west of Jerusalem.

A Jordanian spokesman said 15 Israelis were killed but Israel claimed there was only one Israeli casualty.

The fighting was halted after an hour and a half by the U.N. truce supervision mission in Jerusalem.

The Jordanian spokesman first reported two Jordanians killed but later revised this to say the Jordanians suffered no casualties.

Careening Car Rams Bedroom

CLEVELAND (AP)—Four persons were hospitalized after an automobile crashed into the bedroom of a basement apartment on the East Side last Friday night.

Four others were released after examination at a hospital.

Sonny McCool, 33, and two of his sons, Raymond, 3, and Charles, 2, were pinned between their bed and the car in the apartment but not hurt seriously. Charles and his father were hospitalized however.

Roy Bryant, 20, driver of the car, and a passenger, Betty Jackson, 17, were hurt seriously.

Trial Set for Lorain Civil Service Aides

ELYRIA, Ohio (AP)—The trial for three members of the Lorain Civil Service Commission indicted last week for misdemeanors has been set for Nov. 15.

They pleaded innocent in Common Pleas Court Friday to charges of willfully failing to require physical examinations and failing to use efficiency ratings in police department promotions.

Local Optometrist Attends OSU Meet

Dr. Robert Liggett, local optometrist, attended a meeting of the Ohio State Optometric Assn. Committee on Assistance to Graduates and Undergraduate held Wednesday in Columbus.

Dr. Liggett is chairman of the committee that conducted a forum to familiarize senior optometric students at OSU with types of practice, fee structures and waiting room procedures.

Police Probe Report On Series of Thefts

Circleville Police are investigating what is believed to be a series of thefts that have occurred during the past several months.

Police said Jack Hatzos has reported that his grandfather, Jacob Hatzos, 421 S. Washington St., apparently has been missing funds recently. He receives a monthly social security check.
